Normal Conditions Prevailing and City
Has Assumed Former Semblance of

Commands All Approaches
To the City.

---Scout Cruiser Leaves For Coast Towns to Urge
Americans to Embark.

(ASSOCIATED PRESS TELEGRAM)
Vera Cruz, April 24.—American
marines and bluejackets controlled
today a radius of at least five miles
around the city of Vera Cruz in
which normal conditions have been
virtually restored.

Outposts were pushed further out
in a southerly direction early today
to the water supply station at Tejar,
and marines and sailors were de-
spatched there to obtain control of
all pipe lines into the city. To the
west and northwest, Captain Smed-
ley Butler, with his marines, is
stationed. Thus Rear Admiral
Fletcher commands all the ap-
proaches to the city.

Within the city, sniping had al-
most ceased this morning. A close
watch for sharpshooters was kept
up all night by patrols who marched
through the streets. Orders have
been issued that all civilians should
keep within their residences after

7:30 o'clock in the evening and these
were strictly obeyed. As a result
the night hours were quiet. It was
generally expected that unless some
untoward incident occurred today
this "curfew hour" would be extend-
ed. Some 300 Americans, mostly
women and children left for Galves-
ton on board the Esperanza and ar-
rangements have been made for re-
moving from the coast towns as soon
as possible all Americans who can be
induced to leave.

More than 1000 Americans are re-
ported to have left Tampico where
they were given the most urgent ad-
vice that they had better make their
departure.

The Chester is to be sent to Fron-
tera, Coahuila and other coast
towns to urge Americans there to be
ready to embark on the Ward liner
Monterey, which is due here today
from Havana.

AMERICANS AT TAMPICO IN DANGER

(ASSOCIATED PRESS TELEGRAM)
Tampico, Mexico, April 21.—(Via
Vera Cruz).—There was great ap-
prehension here today shortly after
an order had been issued advising
all the American residents in Tam-
pico and vicinity to leave the coun-
try immediately. The scout cruiser
Chester cleared for action and steamed
seaward down the river. The gun-
boat Dolphin also cleared for ac-
tion and followed her. Both vessels
noisily saluted the British cruiser
Hermione as they passed. A little
later the Des Moines steamed away
with her gun crews standing ready
at the guns. The three vessels dis-
appeared around the bend of the
river and passed out to sea. It was
understood the Des Moines would
remain off the port while the rest
of the American vessels proceeded
to Vera Cruz.

The disappearance of the protect-
ing ships caused astonishment and
dismay among the American resi-
dents, who were unable to believe
they had been deliberately abandon-
ed on what appeared to be the be-
ginning of hostilities in the midst
of a population known to cherish feel-
ings of bitter hatred against Ameri-
cans.

COURT'S ORDER RESTRAINS STRIKERS IN PORTSMOUTH.

(ASSOCIATED PRESS TELEGRAM)
Portsmouth, April 24.—Blanket
restraining orders against striking
shoeworkers and sympathizers were
granted by Judge Corn of Ironton
to the Irving Bros. and Excelsior
Shoe Companies yesterday.

The judge held that the firms were
entitled to protection pending hear-
ings on suits.

William Johnson (Columbus youth
and shoeworker, was ordered ar-
rested by Judge Corn for misconduct
in court, and Sheriff John Eckhart
took him to jail. Johnson while on
the witness stand, repeatedly evaded
questions of attorneys for the shoe
companies and exchanged words
with the judge.

MEXICANS ARE FIRING INTO TEXAS

(ASSOCIATED PRESS TELEGRAM)
San Antonio, Texas, April 24.—A
long distance telephone message re-
ceived here at 3:35 p. m. said the
Mexican federals in Nuevo Laredo,
Mex., had fired the town and were
firing across the river into Laredo,
Texas.

FLOODED WITH APPLICATIONS.

(ASSOCIATED PRESS TELEGRAM)
Pittsburg, April 24.—Officers in
charge of the navy and marine corps
recruiting office here were flooded
with applications for enlistment
again today. Yesterday an average
of 20 an hour for the navy were dis-
posed of, many applicants being for-
eigners. One squad of fourteen Rus-
sians accompanied by an interpreter
was rejected because none could
speak English.

WAR TIME SCENES ON TEXAS BORDER; OUR SOLDIER BOYS EAGER TO CROSS RIO GRANDE

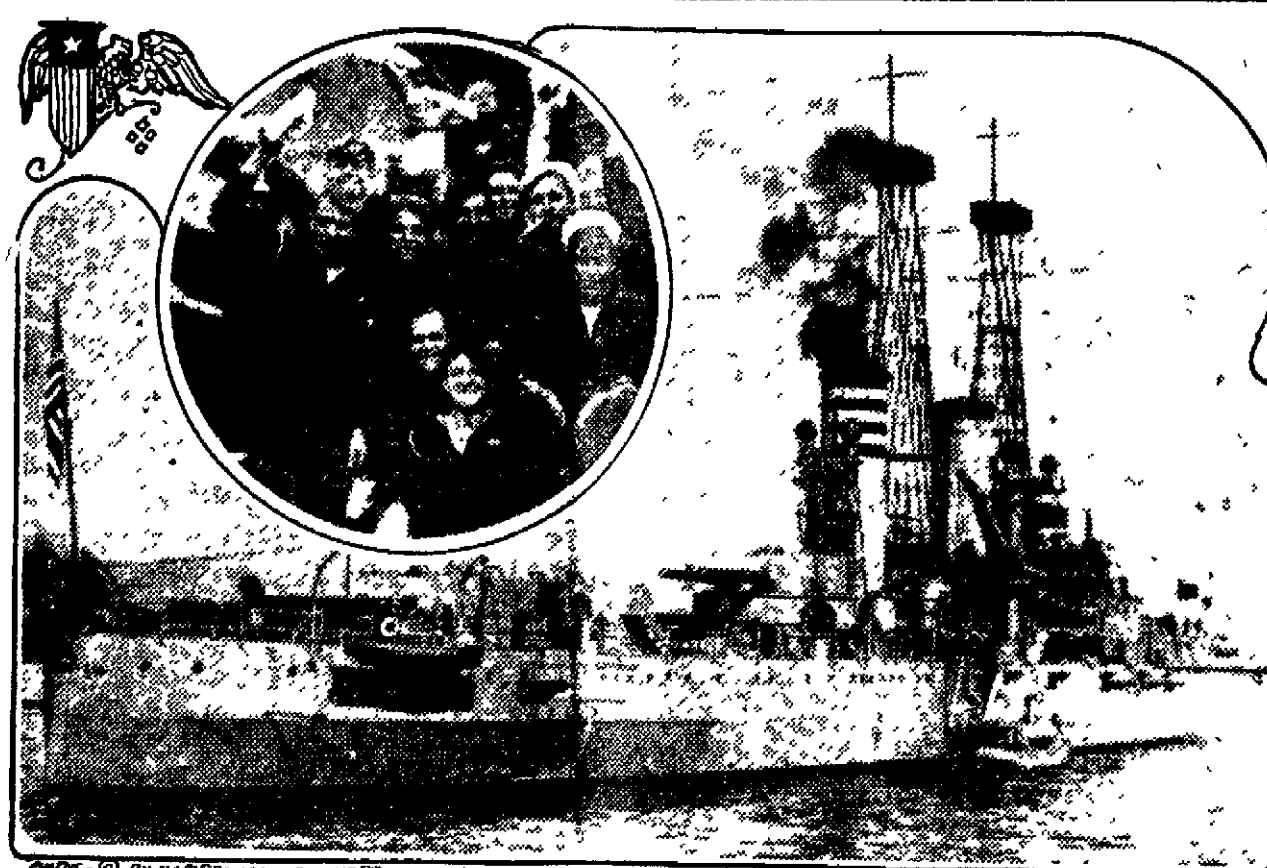

Army scenes at El Paso, Texas.

San Antonio and infantrymen, to say nothing of artillerymen, are camping at El Paso, Texas, by thousands, waiting for the word which will send them across the border into Mexico to suppress the power of Huerta. The boys are eager to cross the Rio Grande and see a little of the actual warfare for which they have been trained.

North Dakota and some members of her crew

The big gray sea fighter, the North Dakota, is now steaming at full speed toward Tampico. With new guns bristling from her batteries, the big sea fighter now has ten 12-inch and 14 high velocity 5-inch pieces. She is the second big battleship of Uncle Sam's navy to be equipped with turbine engines and has just received a three months' overhauling at the New York navy yard.

Two Licking County Boys Are Serving In Mexico; Officers of U. S. Army

Mr. and Mrs. Abraham Burnside of Alexandria have surely an especial interest in the present Mexican embroglio, as they have two sons who have been at the scene of military operations of the United States army.

The elder son is Captain William A. Burnside, who has been military aide to Charge d'Affaires Nelson O'Shaughnessy at Mexico City and left with that diplomat for the Pacific coast, according to Associated Press dispatches to the Advocate this morning.

The younger son, Lieut. Rex Burnside, is at present on a short vacation, at the home of his parents in Alexandria, having come a week ago last night, with his wife and child.

This young officer has been in the army for three years, being assistant surgeon in the 20th cavalry. Since late last December he had been stationed at Ft. Bliss, Texas, in charge of the refugee camp at that place. He is a graduate of Jefferson Medical College in Philadelphia, and later from the Army and Navy school at Washington, D. C., from which he received his commission.

Captain Burnside obtained his appointment to West Point during the congressional career of the late Capt. J. W. Owens in 1891, and was graduated as lieutenant four years later.

During the Spanish war he saw service at various points, including Cuba, Porto Rico and the Philippines, at this time being promoted to a captaincy.

Captain Burnside has been in Mexico practically ever since the trouble began. His wife lived at Vera Cruz and he at Mexico City from which latter city he made frequent visits. His relatives have heard nothing

from him for about two weeks and do not know whether his wife is now with him or not.

Captain Burnside was graduated from the Newark schools in the class of 1891, and has one sister, Mrs. Thomas Stager of Alexandria. He is also a cousin of the late Charles Allen and Miss Carrie Allen, teacher in the High school in this city.

The relatives of the officer in this county were apprehensive of his safety of course, and expressed great appreciation and relief when given information of his safety by the Advocate.

Meanwhile the scene of the revolution had nearly been lost in the flare of the internal attraction, although reports indicate that it is being carried forward with some vigor. Fighting at Monterey was reported and General Natera even admitted a repulse north of Zacatecas.

General Villa arose early. Last night he told George C. Carothers, special agent of the state department that "nobody could drag him into a war with the United States," and he expressed the hope that the Americans "would bottle up Vera Cruz so tightly that even water could not get into it." Villa's statement and the insistence of Carranza's advisers now in this city that the supreme chief's note to Secretary Bryan on the situation was not intended to be hostile, revived the optimism which sank with the publication of the note.

Demonstration Against Americans In Mexico City---Position of Those Left In Federal Capital Is Regarded As Being Very Critical

"DEATH FOR AMERICANS" SHOUT THE MEXICANS

Windows Smashed in American Club and American
Jewelry Store Looted by Mob While Police Look
On---Charge d' Affaires Nelson O'Shaughnessy and
His Aide, Capt. William A. Burnside of the Regular
Army, a Licking County Citizen, Believed to Have
Left for Manzanillo, on Pacific Coast.

(ASSOCIATED PRESS TELEGRAM)
Mexico City, April 23.—(By refugee train to Vera Cruz, April 24.)
—Mobs in the streets of Mexico City were tramping under foot the
Stars and Stripes and were threatening American pedestrians when
the refugee train engaged under the auspices of the British and Ger-
man legations left for Vera Cruz carrying some 500 fugitives of various
nationalities. The position of those American citizens left in the fed-
eral capital was regarded as critical. Nelson O'Shaughnessy, the
American charge d'affaires, Lieutenant Rowan of the navy and captain
William A. Burnside of the army were to leave on Thursday night for
Manzanillo on the Pacific coast under special arrangement with Pro-
visional President Huerta.

Immediately after the news of the landing of American bluejack-
ets and marines at Vera Cruz was made known in the federal capital
by extra editions of the local newspapers crowds of students and gov-
ernment office employees began to gather.

By dusk a mob had assembled in front of the American club where
they smashed windows and howled insults and threats at the Ameri-
can citizens inside, all of whom they threatened to assassinate.

An appeal to the governor of the federal district brought police
protection but not before the crowd had shattered many of the win-
dows in the club house and in adjoining properties belonging to Ameri-
cans.

Two o'clock in the morning, bands of excited Mexicans marched
through the streets singing the Mexican national anthem and shouting
"Death for the Americans."

An American jewelry store was looted by the mob at midnight.
The police looked on without taking any action.

The American Club the leading American hostelry and the offices
of the Mexican Herald were closed owing to the threats.

American Charge d'Affaires O'Shaughnessy had not received his
passports but was preparing to leave.

The refugee train took twenty hours to make the journey from
Mexico City to Vera Cruz. There were many delays but no mishaps.

Troops Break Camp At Galveston and Embark To Sail For Vera Cruz

(ASSOCIATED PRESS TELEGRAM)
Galveston, April 24.—The rein-
forced Fifth Brigade, the army's
first expeditionary force for Mexico
broke camp during the night at Fort
Crockett here and at daylight moved
to the transports waiting to take
them to Vera Cruz. They were not
expected to sail before late this after-
noon. The soldiers marched from
camp after a night spent practically
without sleep. The general senti-
ment appeared to be that they were
glad to escape the routine of camp
life under canvas, which has lasted
here for more than a year since the
second division was mobilized at
Galveston and Texas City. These
Camp Crockett regiments, Fourth,
Seventh, Nineteenth and Twenty-
eighth Infantry comprising about
3,700 men and forming the bulk of
the brigade were largely veterans,
all having seen service in the Philip-
pines. They worked all night pack-
ing and cleaning camp and by day-
light the troops were not only ready
to move but the 100 acres they had
occupied was almost literally broom-
swept, so careful was the cleanup.

The whole movement passed
quietly. Wives of men or officers
here and there watched their hus-
bands. When daylight came with a
cold rain many women stood bare-

headed on the sea wall overlooking
the camp, seemingly unimpressed by
the weather as they watched passing
companies for a look at their own
men folk.

One lone military prisoner was
was compelled to remain in a low
railed enclosure at the end of the
camp, where all the troops passed
in their march to the front in full
view. He walked round his en-
closure all the time watching the
troops.

The four infantry regiments which
left today joined the mobilization
camp from the following posts:
Twenty eighth Infantry, Fort Sac-
ling, Minn.; Fourth Infantry from
Fort Crook, Neb.; Seventh Infantry
from Leavenworth, Kas.; 19th In-
fantry from Fort Meade, South
Dakota. Company E, Engineers
which also boarded the transports
came from Leavenworth. The Sixth
cavalry which also is boarded to sail
with all possible despatch came from
Fort Des Moines, Ia. Just when the
cavalry would get away was not
settled early today.

In addition to the four transports,
Meade, Summer, Kilpatrick and
McClellan which were taking
McClellan's troops, the quartermaster's depart-
ment was endeavoring to secure one
cold rain many women stood bare-

STARTING IS EASY

IF YOU EVER CONTEMPLATED ENTERING THE CONTEST,
NOW IS THE TIME TO GET IN. Every moment from now until the
close of the big Booklovers' Contest is precious. Every moment means
that much more or less time to devote to the solution of the pictures.
True it doesn't take long when once you start, but delays are danger-
ous, and the longer time you allow in which to fit the proper titles
to the drawings, the better are your opportunities to win and the fewer
your chances of error. More contestants are starting every day, and
new ones are coming from distant parts of the contest territory. Many
persons who do not reside in the territory of the big contest are help-
ing friends who do reside within the limits fixed in the rules. Interest
is growing every minute, and the contest editor ventures the guess that
an election will not be in it for a moment with the excitement which
will attend the wind up of the race. When it's all over and those spec-
ial prizes are passed out, wouldn't you like to be one of the 136 win-
ners, and get a part of those \$4,000 prizes? TRY. ENTER NOW.

(64) APRIL 24, 1914. (64)

Clip out your coupons neatly, and fill them out clearly and plainly, remembering that in the event of a tie for any prize between two or more contestants, neatness and clear writing will win the judges' favor. The picture is to be a part of the coupon. Do not detach the coupon from the picture.

Send no answers whatever to the Advocate until the contest is ended by the publication of Picture No. 70. Any answers received before that time will be destroyed and will not be counted. Read the rules carefully.

Rules of the Booklovers' Contest.

Any person may compete in this contest who lives either in Licking, Delaware, Knox, Coshocton, Muskingum, Perry, Fairfield or Franklin counties, Ohio, except employees of the Advocate or members of their families.

Answers to the picture must be written upon the coupon blank which will be printed every day with each picture during the seventy publication days the contest will last. Both picture and blank must be clipped from the paper, and the blank properly filled in with the name of book and the author's name together with the name and address of the contestant written clearly and plainly in the space provided. Not more than one person's name may be written on any coupon.

Each picture will represent the title of only one book, but there may be some pictures that suggest the title of several books. For the benefit of contestants, and to allow for this variety of solution, any contestant may give as many as five answers to any picture, at will; but not more than one solution may be written on any coupon. If the contestant gives two answers as likely to include the correct one, two coupons must be used; if three answers, three coupons, and so on.

In each instance, whether the contestant gives one answer or five answers to any picture, both the picture and coupon must be used for each of the answers; and not more than five answers to any picture will be permitted.

If any one of the five answers that may be given to any picture is correct, the contestant will be credited for the correct solution and will not have the incorrect ones counted against his or her chances.

Prizes will be awarded to every contestant, by the Contest Judges, who sends in the largest number of correct answers upon the smallest number of coupons. Thus, if a contestant gives the correct answers to 70 of the pictures and uses only 70 coupons, that contestant will rate higher in the prize awards than one who uses 140 coupons or any higher number up to 350 for supplying the 70 correct answers.

If two or more persons, supplying the same number of correct answers, have used the same number of coupons for their answers, the highest rating will be given to the one whose answers are most neatly prepared. In the opinion of the judges.

No contestant will be allowed to submit more than one set of answers, which must include not less than 70 or more than 350 coupons, with accompanying pictures.

Positively no solution may be sent in to the Contest Editor until every one of the seventy pictures has been printed. Answers in complete sets, as just specified above, will then be received in this office, and should be addressed to "Contest Editor," Booklovers' Contest, Advocate, Newark, Ohio. The awards will be made strictly according to the conditions of each set of answers.

MEAT INJURIOUS TO THE KIDNEYS

Take a tablespoonful of Salts if Back hurts or Bladder bothers—Meat forms uric acid.

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headache, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in hand weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

THE GREAT COUGH-CURE

SULPHUR DRIES UP ECZEMA AND STOPS ITCHING

This old time skin healer is used just like any cold cream.

With the first application of bold-sulphur cream the angry itching attending any eczema eruption ceases and its remarkable healing powers begin. Sulphur, says a renowned dermatologist, just common bold-sulphur, made into a thick cream will soothe and heal the skin when irritated and broken out with Eczema or any form of eruption. The moment it is applied all itching ceases and after two or three applications the Eczema disappears, leaving the skin clear and smooth.

He tells Eczema sufferers to get from any good pharmacy an ounce of bold-sulphur cream and apply it to the irritated, inflamed skin, the same as you would any cold cream. For many years this soothing, healing sulphur has occupied a secure position in the treatment of cutaneous affections by reason of its parasite-destroying property. It is not only parasiticide, but also antipruritic, antiseptic and remarkably healing in all irritable and inflammatory conditions of the skin. While not always establishing a permanent cure it never fails to instantly subdue the irritation and heal the Eczema right up and it is often years later before any eruption again appears on the skin.

WATER NYMPH DISPORTS IN LICKING RIVER

Perhaps Police Chief Sheridan and Juvenile Officer Dwyer have read of water nymphs, mermaids and such like but it is doubtful if they ever expected to come face to face with anything of the sort. That may explain their surprise Thursday afternoon when they came upon a woman doing a "September Morn" in the South Fork of the Licking river near the German street bridge. She was attired in nature's garb and another garment, entirely inadequate. In fact she was in no condition to be escorted from the creek to the patrol wagon which awaited on the bridge for the return of the officers. A horse blanket, requisitioned from the police vehicle, furnished the prisoner with sufficient protection from a too curious public and she was removed to the city hospital.

Telephone calls notified police headquarters that the woman was bathing in the creek near the bridge, despite the fact that the weather was bone too warm. Police Chief Sheridan, Officer Dwyer and Headquarters Officer Hager with Driver Francis made the trip to the bridge.

The woman had left the water and had apparently started to dress, when the officers arrived. When she caught sight of them, she discontinued the operations and again took to the water. Getting into the rifle, her feet were swept from under her and she started floating down stream on her back.

Chief Sheridan splashed into the water from one side of the stream and Officer Dwyer from the other side. She was rescued by the officers before she had floated far, but when she was placed on her feet, the water was not deep enough to take the place of the clothing which she abandoned in her flight.

The Chief called for a blanket from the patrol wagon and the woman was wrapped up and carried to the wagon. Fearing that her chilly bath might result seriously, she was ordered to the city hospital but she became so disorderly during the evening that she was removed to the city prison.

Friday morning she was fined \$20 and costs and sentenced to the Columbus workhouse. Patrolman Hurbaugh took her to that institution Friday afternoon.

Both the woman and her husband have been before Mayor Bigbee several times and the mayor told the prisoner that there was no excuse for her actions Thursday. She pleaded for a suspension of sentence but it was denied her.

BAD WATER WILL BE ARMY'S WORST FOE IN MEXICO.

(Associated Press Telegram)

New York, April 24.—Bad water will be the army's worst foe in Mexico if war is declared according to Col. M. D. Maus, chief surgeon of the First army division, which has headquarters on Governor's Island. The water supply and sanitation system of Mexico, he explained, were so far behind modern methods that if an army should be sent into Mexico City an entirely new system would have to be provided. He estimated that millions of dollars would be expended by the United States for sanitation and that from a health standpoint American occupation of Mexico would be a good thing for that country.

To insure pure drinking water, Col. Maus said that filters would be a part of every army division equipment and if the water proved too impure for filtration, it would have to be boiled. He did not express concern because of disease among the soldiers except from typhus in Mexico city which is responsible he said, for the large mortality rate among infants in that city. With the sanitation system that the army would provide in the capital city, even typhus, he declared, could be conquered.

Who Can Beat Sworn Testimony of Honest Citizens

Some time ago I began the use of your Swamp-Root with the most remarkable results. For years I was almost a wreck and was a great sufferer. The doctor who treated me made me believe that my great sufferings were due to female trouble. I was so bad at times I would faint away and had sinking spells. Finally a new doctor was called in and he said that I had kidney trouble and gave me medicine, of which I took several bottles. I obtained some relief from this but I was getting weaker all the time. I could not sleep and suffered so much pain that my husband and children had to lift me in and out of bed. After this time two friends sent me word to try Swamp-Root, which I did, and I am glad to state that the first dose gave me great relief. After taking the third dose I was helped into bed and slept half of the night. I took several bottles of Swamp-Root and I feel that I owe my life to this wonderful remedy. The two family doctors said that I could not live three months. I would have to be helped in and out of bed ten to twenty times every night. After taking Dr. Kilmer's Swamp-Root for two days I was entirely free from getting up and could sleep soundly.

A Pure Olive Oil

OLIVESE

brand of Olive Oil is the first pressing of carefully selected Italian Olives. This first pressing yields the virgin oil, the very best, the only kind ever put in containers bearing the OLIVESE trademark. The old Italian method is conceded to be far superior to modern methods, and olive oil so prepared will actually improve with age. OLIVESE comes direct—canned in Italy—from the old Italian orchards and is prepared by the old methods.

If you do not find OLIVESE to be of the highest possible quality—or if for any reason you do not find it entirely satisfactory—you may have your money back without question.

COMMUNITY XMAS TREE DEDICATION

With befitting ceremonies starting shortly after 2 o'clock Friday afternoon, the new municipal Christmas tree was planted in the court house park, accepted by Chairman C. H. Spencer of the Christmas tree committee, and by Mayor R. C. Bigbee. In all the public schools of Newark the afternoon was devoted to appropriate exercises in observance of Arbor Day.

The planting and dedication of the public Christmas tree donated by Newark Trades and Labor Assembly, proved the center of attraction for a large crowd which thronged the court house park and looked on from the streets and business places on the north and east sides of the public square. The tree was raised and the dirt packed around its roots by representatives of Newark organized labor, while the Buckeye band played "America" and the international Christmas hymn, "Holy Night."

The formal address of presentation was made by President William M. Morgan, of Newark Trades and Labor Assembly. As the tree, a graceful and shapely specimen of the arbor vitae variety, was raised into position, President Morgan addressed his remarks to the community Christmas tree committee. He said: "The suggestion to the Newark Trades and Labor Assembly by the delegates to plant a tree to be dedicated as a community Christmas tree was due to the Christmas sentiment and deep appreciation of the delegates of the charitable feature in connection with the erecting of a Christmas tree for the community on last Christmas."

"The delegates took up the matter of erecting this tree with the different local unions affiliated with the assembly for their approval and co-operation, and I am pleased to say that approval and co-operation was cheerfully given."

"Mr. Spencer, on behalf of the Newark Trades and Labor Assembly and organized labor of this city, it gives me great pleasure to present to your committee this tree, with the request that it be presented to the mayor of this city for city protection and to be dedicated on this occasion as a community Christmas tree, and we hope that the Christmas spirit and the charitable features which were developed as a result of your erecting a Christmas tree will be extended and continued."

Mr. Spencer, in acknowledging the presentation, said: "The self-appointed committee which, through contributions received by the Newark newspapers, placed a community Christmas tree in the court house park last December, feels much gratification that this symbol of 'peace on earth, good will to men' was so well received, and that the idea is to be perpetuated in more permanent form. It is with the greatest pleasure that this beautiful tree is accepted as a gift from Labor to the city of Newark."

"Newark was among the first to adopt the community Christmas tree idea, following the custom recently established in New York. It is a custom that makes a wide appeal. This emblematic tree stands for everything that is good—kindness, good-will, fellowship, the brotherhood of man and the fatherhood of God; that Newark cherishes and admires these qualities was abundantly attested by the hearty and voluntary contributions to the tree fund last year by men, women and children, by corporations, by fraternal, religious, business and labor organizations. All sorts and conditions of men enthusiastically united to place this outward and visible sign of the true inward and spiritual grace of Christmas where its softly glowing light might send its radiance into many hearts and reflect there the Christian virtues for which the tree stands."

"It has been, indeed, a happy thought to have a living tree to represent this Christmas spirit. May it be a reminder to us to let the Christmas spirit spill over a little into the rest of year."

"The committee which was in charge of the initial program last December is more than glad to accept this tree from Newark's Trades Assembly and feels honored in presenting it to the city of Newark through his honor, Mayor Bigbee."

"Long may it flourish. And not only when it sparkles with myriad lights at Christmas time, but

A TONIC FOR DYSPEPTICS

When food lies undigested in the stomach it ferments and gas forms. This gas distends the stomach and presses on the heart, causing a pain that sometimes arouses fear of heart trouble. The condition in which gas forms is caused by a low tone of the digestive organs and a lack of rich red blood resulting in deficient nerve force. It is a condition that calls for a tonic.

Dr. Williams' Pink Pills, a tonic for the blood and nerves, have been used with great success in the treatment of this form of stomach trouble. Cold baths in the morning followed by brisk friction with a rough towel will help as they stimulate the circulation but a tonic treatment with Dr. Williams' Pink Pills by building up the blood, restoring the nerve force and making the stomach able to do its work gives the most lasting benefit. With their use the appetite increases, digestion becomes normal and improvement in the general health follows with certainty.

You are trying no experiment when you take Dr. Williams' Pink Pills. They cannot harm the most delicate system. You can get Dr. Williams' Pink Pills at the nearest drug store. A copy of the fat book "What to Eat and How to Eat" will be sent free by the Dr. Williams Medicine Co., Schenectady, N. Y.

throughout the year may it be, even to our children's children, a constant source of inspiration and a reminder of the working men of Newark."

Mayor R. C. Bigbee said: "Mr. Chairman, this is an occasion on which I feel a great degree of pride to be able, on behalf of the citizens of Newark, to accept this generous gift from the Newark Trades and Labor Assembly through your committee. This is a spot on which a tree is needed, and it is indeed fitting that we should have here this beautiful Christmas tree. May the evergreen signify the unchanging spirit of Christmas time with goodwill to all, and may its growth symbolize the growth of charitable feeling and brotherly regard as our city advances. On behalf of the citizens of Newark, I accept this Christmas tree with sincere thanks."

A selection by the Buckeye band concluded the program.

The new tree, which was a late substitute for the tree which was damaged in an accident during its removal, stands thirty feet high, is shapely, strong and hardy. However, to provide for the possibility of its decaying or falling properly to take root, a smaller tree, seven feet high, was planted by the Labor Assembly a few feet from the larger one.

The tree which originally was provided, but which was damaged and had to be given up, was donated to the Trades and Labor Assembly by the Veach Land company.

In the public schools, pupils took part in exercises attending the planting of about seventy-five trees. Trees to have been planted Friday were thirty alms on White Athletic Field by the High School Athletic club boys, twenty at Mound, fifteen at Hartizer and ten at Keller. Practically every public school pupil in Newark had been provided with a supply of garden, flower and shrubbery seed.

Similar exercises were held Friday in the country and village schools. A lengthy program was given at the Star Hill school, marking the close of the spring term.

SPLENDID MEETING OF WEST LOCUST STREET SOCIETY

The Arbor Day exercises held Thursday evening by the West Locust Street Beautifying society in Y. M. C. A. auditorium, proved to be a very interesting meeting. Invocation was offered by Rev. Mr. Marshall, and Mr. O. C. Larsson spoke briefly of the object of the society. He complimented the city administration in getting rid of so many worthless dogs, and said there are many running on Locust street that ought to be added to the number. He approved city cleaning up day as well as housecleaning day. He said sidewalks were not built for bicycles, spittoons, or roller skating rinks, nor

Madame Isbell's Beauty Lesson

LESSON X—PART IV.
BREATHING: ITS RELATION TO HEALTH AND BEAUTY.
Use of Massage Cream.

All breathing exercises will have an excellent effect on the development of the throat, if the shoulders are held well back and the chin up. Most lesions in the neck come from either wearing high, stiff collars or an improper habit of holding the head or neck. A stiff, high collar by weakening the muscles is responsible for a double chin, and by pushing up the flesh will often make a little area of wrinkled flesh back of the ears. The breathing exercises given in this lesson will help this trouble and the effect will be more rapid if, while the pupil is doing them, the throat, the skin behind the ears, and any hollows in the neck are covered with a good massage cream. The exercises by increasing the circulation and making the skin pores more active, put the skin in a condition to quickly absorb the nutrition in the massage cream.

When the exercises are finished wipe off any massage cream with a soft cloth and follow by bathing the skin with very cold water.

Short Breathing.

A woman is often mortified by discovering that she cannot make a short, sharp, full running for a train, without getting out of breath. This condition will always result from incomplete breathing, that is, the habit of only partly filling the lungs. When increased exercise calls for more work from the lungs they are not able to respond without discomfort. Another cause of short breathing is the accumulation of too much fat around the diaphragm. The breathing exercises will help both of these conditions, and, later on, I shall give some exercises for waist reducing. However, I wish my pupils to "get the habit" of correct breathing before they commence physical culture. Deep breathing every morning will soon so accustom the lungs to complete inhalation of air that they will be satisfied with nothing else, and deep breathing will become a habit.

lawn and private door yards for waste baskets.

He spoke of the council that is considering the injustice of abutting property owners in building and paving streets for others who have vehicles to use. That one of the council has proposed a vehicle tax, running from 50 cents on a bicycle to ten dollars on heavy trucks, per year.

Mrs. W. V. Davis read a beautiful and striking selection suitable for the occasion.

F. H. Ballou, of whom Newark should be proud to count as one of her citizens, then spoke regarding the kind of trees, plants and flowers to cultivate in a city. It was, possibly, one of the strongest and most practical papers ever read to a Newark audience upon this or similar subjects. It followed so much a paper Mr. Ballou read at a recent meeting. These papers are now in the possession of the society and should be read by each member, especially by those who expect to improve the street.

Mr. A. P. Sandles could not be present but sent Mr. M. E. Shaw of Columbus, who proved to be very entertaining and interesting speaker. He congratulated the citizens of Locust street upon the movement and said more Ohio cities should start a similar one. He spoke of the civic pride that is being manifested in Marietta to organize a fight against insect pests. Shade trees that are practically immune from insects should be planted. He said many persons travel over the state that don't know how to prune or "doctor" trees yet solicit and get much work in that line of business. He spoke of one menace to private lawns that is noticeable in Newark viz, boys driving delivery wagons permit their horses to graze while they go into the house. He also said that while every private lawn should differ somewhat from others to break the monotony, yet if every lawn along the street had several bushes or flowers of the same kind, such as the Bridal Wreath or Salvia, all would be in blossom at the same time and would present a striking and beautiful appearance. He said Springfield, O., had such a street and people would drive many miles to see it. Their office would lend a helping hand to all, he continued.

Short talks were given by Mayor Bigbee, D. M. Jones, who lives on the street, City Engineer Wells, and Prof. Barnes. They all spoke briefly and entertainingly of neighbors' chickens, worthless dogs, flushing and taking care of the streets, good sidewalks, beautifying the lawns, etc.

DENTISTS FORM BRANCH OF OHIO SOCIETY HERE

Thirty dentists from Licking and Knox counties organized the Willoughby Miller Dental society, a component branch of the Ohio Dental Association, at a meeting held Thursday at Hotel Warden. Forty dentists attended the meeting, some of them being invited guests, who read papers or took part in the clinics. A banquet was held during the evening.

The society was named in honor of Dr. Willoughby Miller, a native of Licking county, who probably gave more to dental science than any other man. Dr. Miller spent years in bacteriological research work in Germany and was prominent among dental scientists. He was selected among the world's famous dental surgeons to become dean of the dental college of Ann Arbor university and came to this country to take that position. He was seized with an attack of appendicitis shortly after his arrival in Newark and died in a local hospital before he was able to take up his new duties.

The new society is composed entirely of ethical dentists and practically all the dentists in the two counties composing this component branch are members. The officers elected are:

President—Dr. W. H. Sedgwick, Newark.

Vice President—Dr. E. C. Beggs of Mt. Vernon.

Recording secretary—Dr. C. L. Wyeth.

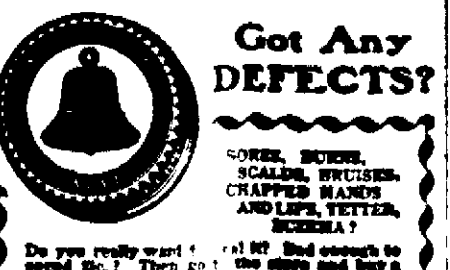

Corresponding secretary—Dr. E. V. Prior.

Treasurer—Dr. E. S. Deele, Mt. Vernon.

The society voted to meet each May at Mt. Vernon and each October in Newark. Similar societies composed of dentists of two and three counties over the state are being organized, as branches of the state association.

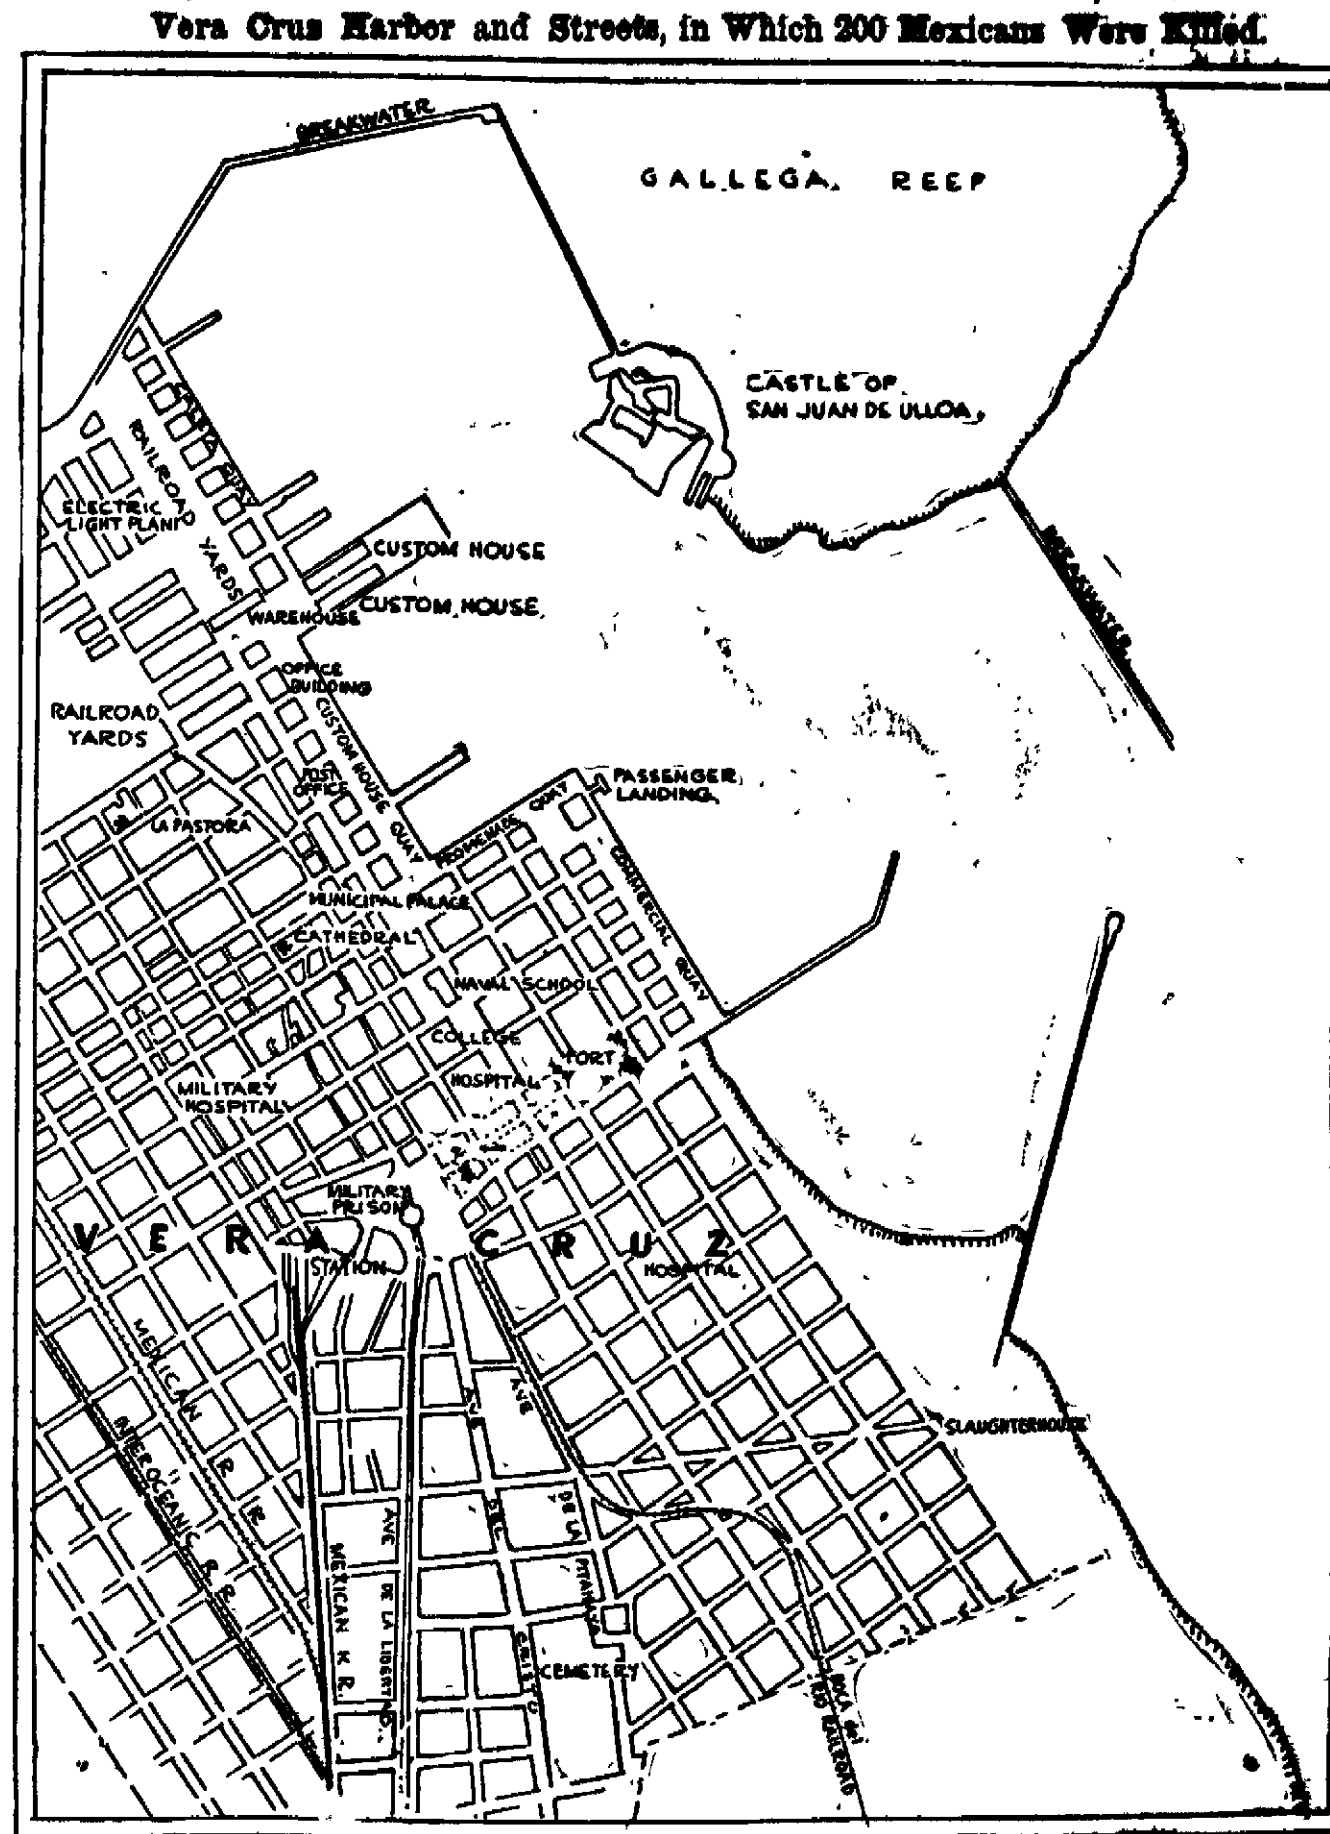

Thursday afternoon Dr. Beaman of Columbus read a paper and Drs. Mills, Martindale, Glimmer and Kendall of Columbus took part in the clinics.

The following dentists were present: Drs. H. S. Patrick, J. D. Ford, Edwin Miller, W. H. Gleason, A. V. Davis, E. J. Russell, H. G. Withers, A. M. Gray, A. W. Beard, J. H. McCabon, E. F. Douglas, G. W. Bourne, Chas. A. Beck, C. D. Wright, E. C. Beggs, A. W. Crandall, C. D. O'Hara, W. S. Daley, E. V. Prior, L. E. Davis, C. B. Keller, C. W. Reelborn, F. M. Preston, J. W. Reiter, L. E. Gage, J. T. Lewis, C. L. Wyeth, W. H. Sedgwick, R. L. Antosh, Dr. Grossman.

American Troops May Take General Scott's Old Route to Mexico City From Vera Cruz.

Should it be determined that the old route, the Mexican Railway, standard gauge and modern, is described as the "scenic route of Mexico," which alone explains its disadvantages. Where it is not crossing rivers 500 feet down in a canyon it is clinging to the side of a mountain or burrowing through it. Beginning in a tropical country, it crawls dangerously near the snow line, then up and down and through narrow passes until it reaches the Mexican central plateau. There are bridges, curves, tunnels on the Inter-oceanic Railway of the National Railway system; but as it follows much the same route as the ancient highway it is supposed that the advance would be made over that way. This road is narrow gauge, ancient, and with not enough rolling stock to furnish transportation for more than a few regiments at most. Marching the army to Mexico City from Vera Cruz means guerilla fighting for approximately 300 miles under conditions to try the most seasoned of troops. It means taking men accustomed to atmospheric conditions at sea level up as high as 5,000 feet to Mexico City. Only trails made by hundreds of years of mule trains over the old military road can be followed and that means a constant harassing by sharpshooters in the mountains. No troops not hardened to the climate and altitude could accomplish the journey unencumbered. Weighed down by field equipment it would be a physical impossibility for them to do fast work. General Scott proceeded slowly, giving some of his men three months to learn how to use their strength in the rarified atmosphere. It will be necessary now.

Uncle Walt

Old Maids
All girls should marry when they can. There's naught more useful than a man. A husband has some faults, no doubt, and yet he's good to have about; and she who doesn't get a mate will wish she had one soon or late. That girl is off her base, I fear, who plans to have a high career, who side-steps vows and wedding rings to follow after abstract things. I know so many excellent maids who in professions, arts or trades have tried to cut a manlike swath, and old are finds them in the broth. A loneliness, as of the tomb, enshrouds the spinsters in its gloom; the juncrow honors they have won they'd sell at seven cents a ton. Their sun is sinking in the West, and they, unloved and uncared, must live, as they bleakly roam, the girl with husband, hearth and home. Get married, then, Jemima dear, don't tiddle with a cheap career. Select a man who's true and good, whose head is not composed of wood, a man who's sound in wind and limb, then round him up and marry him. Oh, rush him to the altar, for he'll heed his protest or his will. "This is," you'll say, when he's been won, "the best day's work I've ever done."

NEW LIFE

Found in Change to Right Food.

After one suffers for months from acid dyspepsia, sour stomach, and then finds the remedy is in getting the right kind of food, it is something to speak about.
A N. Y. lady and her young son had such an experience and she wants others to know how to get relief. She writes:
"For about fifteen months my little boy and myself had suffered with sour stomach. We were unable to retain much of anything we ate. After suffering in this way for so long I decided to consult a specialist in stomach diseases. Instead of prescribing drugs, he put us both on Grape-Nuts and we began to improve immediately.
"It was the key to a new life. I found we had been eating too much heavy food which we could not digest. In a few weeks after commencing Grape-Nuts, I was able to do my house work. I wake in the morning with a clear head and feel rested and have no sour stomach. My boy sleeps well and wakes with a laugh.
"We have regained our lost weight and continue to eat Grape-Nuts for both the morning and evening meals. We are well and happy and owe it to Grape-Nuts."

Sound in a Fog.
It has often been noticed that on wet and foggy days sounds are heard at a greater distance than on clear, fine days. It was Tyndall who explained the reason for this. He noticed that the distance at which the sounds of foghorns, whistles and shots could be heard varied from day to day from two to twelve miles. The cause of this difference is found in the degree of homogeneity of the air. On a foggy or snowy day the air may be perfectly homogeneous; this permits sound to travel a great distance. In clear weather the air may be composed of vertical layers of differing consistency, and the sound waves are reflected from the surfaces of the layers. Probably they are also refracted in passing through the several layers. Currents of warm ascending air form in one place and currents of cold descending air form in others. Thus the atmosphere may be very transparent optically and very opaque acoustically.

ROME NEWSPAPER COMPARES WILSON WITH A. LINCOLN.

Rome, April 24.—The Tribuna compares President Wilson to President Lincoln. Both it says, are possessed of the same biblical inspiration, the same voracious Puritanism, the same combative ideals. Neither was satisfied to remain content in his own uprightness, but wished others to be bright. Both were pacifists, and yet both had to assume the leadership in war.

POPE PRAISES THE ANTI-ALCOHOLIC LEAGUE'S WORK.

Rome, April 24.—The pope yesterday received 400 members of the International Anti-Alcoholic League. The pontiff praised the work which is being done by the league and urged an extensive campaign against "the scourge which is causing physical, moral and economic evils."

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment double strength—is guaranteed to remove these homely spots.
Simply get an ounce of ointment—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautifying clear complexion.
Be sure to ask for the double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.

DEATH TO FLY INTERESTS GREAT MINDS.

SINCE the fly swatting campaign of last year, which was a mere skirmish in a battle of nations, leading men of this country and Europe, a number of scientific ones among them, have become identified with an organization having the extermination of flies as its serious purpose. They are earnest in attaching quite as much importance to the work as is commonly accredited to great objects of preventive measures, such as tuberculosis and yellow fever. They regard the fly as about the worst enemy of mankind by reason of the very fact that it is tolerated while carrying to humans nearly every known form of disease, being the greatest of germ bearers. Here are a few of the well known men and women associated in the crusade to extinguish the fly:
Dr. Albert Vanderveer, Albany, N. Y.; Miss Alice Lakey, Cranford, N. J.; Mrs. Caroline Bartlett Crans, Kalamazoo, Mich.; Mrs. Robert S. E. Bradley, Boston; Dr. Joseph V. Porten, Jacksonville, Fla.; Dr. S. G. Crumple, Topeka, Kan.; Dr. Woods Hutchinson, Colonel John V. Cuylver and Daniel D. Jackson, M. S. and Edward W. Hatch, Jr., New York.

Sound in a Fog.
It has often been noticed that on wet and foggy days sounds are heard at a greater distance than on clear, fine days. It was Tyndall who explained the reason for this. He noticed that the distance at which the sounds of foghorns, whistles and shots could be heard varied from day to day from two to twelve miles. The cause of this difference is found in the degree of homogeneity of the air. On a foggy or snowy day the air may be perfectly homogeneous; this permits sound to travel a great distance. In clear weather the air may be composed of vertical layers of differing consistency, and the sound waves are reflected from the surfaces of the layers. Probably they are also refracted in passing through the several layers. Currents of warm ascending air form in one place and currents of cold descending air form in others. Thus the atmosphere may be very transparent optically and very opaque acoustically.

The Courts

Juvenile Court.
After a hearing before Judge Hunter in Juvenile court, Cloyd and George Frost, aged ten and nine years were committed to the county children's home.

Divorce Petitions.
Two divorce suits were filed Friday in Probate court, in both of which the wives were defendants. William Brown, who was married to Hattie Brown in Cardington, O. Sept. 10, 1898, asks divorce on grounds of extreme cruelty. He charges that she used indecent language toward him and accused him wrongfully of intimacy with other women; also that she neglected her household duties. They have three children, Annie, 13, Lawrence, 10, and Gerald, 8. Attorney J. W. Hornor represents the plaintiff.

Walter A. Basehart asks divorce from Annie M. Basehart on grounds of three years' wilful absence.

Common Pleas Court.
The Common Pleas petit jurors were excused until May 18, at which time the trials of criminal cases will begin.

The Court of Appeals made an assignment of appeal cases on Thursday afternoon commencing April 28.

Gas Company Case.
Prosecutor J. Howard Jones, in a motion filed against the Newark Natural Gas & Fuel company, Friday, asks common pleas court to strike from the defendant company's answer twelve items, on the grounds that they are irrelevant to the matter at issue.

Included in the statements which the prosecutor would have stricken from the gas company's answer to the suit are: That the company's wells are practically exhausted and the leaseholds are of little or no value as gas territory; that from

subsequent to 1893 up to 1911 the company furnished gas to the citizens of Newark for 20 cents per thousand. Another reference that is asked to be stricken out is the statement that the contract between the city and the gas company was modified by the action of both parties to it and that the gas company was empowered to sell at 18 cents net.

Marriage Licenses.
Howard B. Smith, 27, traveling salesman, Pataskala, and Deila F. Moore, 25, Pataskala. Rev. J. B. Williamson to officiate.

Howard L. Orborn, 20, butter maker, Marion, and Alice Marie McIntosh, 18, Summit Station. Rev. F. G. Thompson to officiate.

Charles Edward Drumm, 23, glass-worker, Newark, and Calla Florencia Markham, 23, Newark. Rev. C. C. Roof to officiate.

Administrator Appointed.
John C. Wood was appointed administrator of the estate of Sidney J. Wood; bond \$2000.

Pike Survey.
County Engineer Swartz and his assistants late Thursday completed the survey of the Croton-Saubury pike. It is planned to advertise the improvement about May 1, so work may begin early in June. It is hoped to complete the pike this year.

To Improve Road.
County Engineer Swartz, Friday, advertised one mile of surface improvement on a stretch of the Newark-Zanesville highway, just east of the Newark City limits. The contract will be let May 9. A composition treatment composed of Taravia "B" and slag screening will be used. This particular stretch of roadway has been subjected to heavy use since its improvement and it has proven a popular place for motoring parties to test speed of their cars and motorcycles.

Ralph Brumbach spent Thursday in Athens in the interest of the Brumbach company, which has a commission house in that city.

Obituary

Mrs. Mary Redman.
The body of Mary Catherine Redman, a former resident of Newark, arrived here from Mt. Vernon Friday morning. Mrs. Redman fell dead from an attack of heart disorder while at work in a garden with

her daughter, Mrs. Rosa Claypool, at the latter's home in Mt. Vernon, Thursday. She was 70 years of age. The body was conveyed to Criss Bros' funeral parlors, W. Main St., Friday morning, was later taken to Poplar Fork, near Gratot, where the funeral service was conducted at 12 o'clock, with interment in the adjoining cemetery.

Mrs. Redman formerly lived in Cottage Hill, near the Licking-Muskingum county line. She is survived by the two children, Mrs. Claypool,

of Mt. Vernon, and Mrs. Louisa Brown, living near Clay Lick, and the following sisters and brothers: Mrs. Dennis Shaw, Chestnut street, Newark; Mrs. Malinda Morris, and James Milton Coomers, both of Elthian, Illinois; Mrs. Osborn Shaw, Nashville, and Mrs. Sarah Michael, of Cottage Hill.

Eulah Mildred Gorley.
Eulah Mildred Gorley, age five months, daughter of Mr. and Mrs. John Gorley of Licking township died Thursday evening at 6 o'clock of spinal meningitis. Funeral services will be held in the home Saturday at 1 o'clock. Interment at Cedar Hill cemetery.

Henry Williams.
Henry Williams, aged 74 years, a veteran of the civil war, died in his home in the Welsh Hills, Thursday, after an illness of several months. The funeral service will be conducted in the home at 10 o'clock Sunday morning, with interment in Phillips cemetery.

Mr. Williams is survived by the widow, two sons, one daughter, and two sisters.

Mrs. Rachel Sterling.
Mr. Sylvanus Jones of Moul street has received a telegram saying that his sister Mrs. Rachel Sterling had died at her home in Knoxville, Tenn., Wednesday morning. Mrs. Sterling was well known here having lived here in early life and visited here several times since moving to Knoxville.

Card of Thanks.
We wish to thank all of our friends and relatives who assisted us during the sickness and death of our dear wife and mother, also to all who furnished flowers. J. W. Adams and children.

Society

Miss Rachel Rhoads delightfully entertained the members of the A. S. Mitchell class of the M. E. Sunday school on Thursday evening at her home in West Locust street. An informal evening was spent and dainty refreshments were served.

The Christomathean class of St. Paul's Lutheran church spent a very pleasant time in their church home Thursday evening from 8 till 10 o'clock. The event was in the form of a banquet, given as the result of a class contest, for its new members. Twenty-four guests were seated at the table where the color scheme of yellow was prettily carried out with candles and daffodils.

A dainty two course dinner was served after which the following toasts were given:

"To the Hope of the Class"—Florence Bowman.

The History of the Class—Sue Tafel.

"To the Blue and Red"—Laura Sheaths.

Response—Bess Tafel.

"Toast to the Christomathean Class"—Freda Wagonheim.

Uncle Walt

Old Maids

All girls should marry when they can. There's naught more useful than a man. A husband has some faults, no doubt, and yet he's good to have about, and she who doesn't get a mate will wish she had one soon or late. That girl is off her base, I fear, who plans to have a high career, who sidesteps vows and wedding rings to follow after abstract things. I know so many ancient maids who in professions, arts or trades have tried to cut a manlike swath, and old age finds them in the broth. A loneliness, as of the tomb, enshrouds the spinsters in its gloom; the jim crow honors they have won they'd sell at seven cents a ton. Their sun is sinking in the West, and they, unloved and uncared, must envy, as they bleakly roam, the girl with husband, hearth and home. Get married, then, Jimima dear, don't tiddle with a cheap career. Select a man whose true and good, whose head is not composed of wood, a man whose sound in wind and limb, then round him up and marry him. Oh, rush him to the altar rail, nor heed his protest or his wail. "This is," you'll say, when he's been won, "the best day's work I've ever done."

NEW LIFE

Found in Change to Right Food.

After one suffers for months from acid dyspepsia, sour stomach, and then finds the remedy is in getting the right kind of food, it is something to speak about.

A N. Y. lady and her young son had such an experience and she wants others to know how to get relief. She writes:

"For about fifteen months my little boy and myself had suffered with sour stomach. We were unable to retain much of anything we ate. After suffering in this way for so long I decided to consult a specialist in stomach diseases. Instead of prescribing drugs, he put us both on Grape-Nuts and we began to improve immediately.

"It was the key to a new life. I found we had been eating too much heavy food which we could not digest. In a few weeks after commencing Grape-Nuts, I was able to do my house work. I wake in the morning with a clear head and feel rested and have no sour stomach. My boy sleeps well and wakes with a laugh.

"We have regained our lost weight and continue to eat Grape-Nuts for both the morning and evening meals. We are well and happy and owe it to Grape-Nuts."

American Troops May Take General Scott's Old Route to Mexico City From Vera Cruz.

Should it be determined by President Wilson to send troops on to Mexico City, Huerta's general, to take the undertaking, it will be one of the most difficult. General Scott, who marched to the capital from Vera Cruz in the Mexican war, almost sixty years ago, found hard work. From sea level it will be necessary to take an ascent to an altitude of more than 8,000 feet. If the railroads can be saved by any method the problem will be easier. There will be the Mexican Railway with its 264 miles to the city, or the other, the old interoceanic Railroad, with its 294 miles. The Mexican Railway, standard gauge and modern, is described as the "scenic route of Mexico," which alone explains its disadvantages. Where it is not crossing rivers 500 feet down in a canyon it is clinging to the side of a mountain or burrowing through it. Beginning in a tropical country, it crawls dangerously near the snow line, then up and down and through narrow passes until it reaches the Mexican central plateau. There are bridges, curves, tunnels on the interoceanic Railway of the National Railway system; but as it follows much the same route as the ancient highway it is supposed that the advance would be made over that way. This road is narrow gauge, ancient, and with not enough rolling stock to furnish transportation for more than a few regiments at most. Marching the army to Mexico City from Vera Cruz means guerilla fighting for approximately 300 miles under conditions to try the most seasoned of troops. It means taking men accustomed to atmospheric conditions at sea level up as high as 8,000 feet to Mexico City. Only trails made by hundreds of years of mule trains over the old military road can be followed and that means a constant harassing by sharpshooters in the mountains. No troops not hardened to the climate and altitude could accomplish the journey encumbered. Weighed down by field equipment it would be a physical impossibility for them to do fast work. General Scott proceeded slowly, giving some of his men three months to learn how to use their strength in the rarified atmosphere. It will be necessary now.

ROME NEWSPAPER COMPARES WILSON WITH A. LINCOLN.

Rome, April 24.—The Tribuna compares President Wilson to President Lincoln. Both it says, were possessed of the same biblical inspiration, the same vigorous Puritanism, the same combative ideals. Neither was satisfied to remain content in his own uprightness, but wished others to be bright. Both were pacifists, and yet both had to assume the leadership in war.

Wisdom from Washington

By ARTHUR W. DUNN.

Washington, April 24.—[Special.]—Governments move slowly. It developed in discussion of an appropriation bill the other day that new buildings are constantly being erected to house departments and long leases being made for them, although public buildings were authorized some years ago for the same departments.

Several squares of land in a desirable part of the city were purchased a number of years ago and three buildings were to be erected. The government is receiving rent from the people who occupy this ground, but not a stroke of work has been done in the direction of erecting the new buildings. There is an occasional outcry and inquiry in congress as to why nothing is done, but that does not get results.

Gold Carries Its Label.

George Otis Smith, director of the geological survey, was telling about the deposit of a large quantity of gold at the Denver mint. "One might naturally suppose," said the director, "that the gold was mined somewhere near the Denver mint, but instead of that it was mined away out in Nevada. It was not taken to the assay office in that state because it had been 'high graded.' We can tell where gold is produced by what it contains and by its color. I can tell the difference in gold produced on different sides of a mountain in Washington by reason of its color. Some gold contains a larger per cent of silver than other kinds."

"High grading" is a pleasant term in the mining country for stealing. It really means that where ore is of a high grade it is easy to pick off chunks of it, and when a quantity is accumulated it can be reduced and minted.

John Garner's Long Reign.

It is doubtful whether any man ever presided longer as chairman of the committee of the whole than John Garner of Texas. He was selected to preside during the consideration of the legislative, executive and judicial appropriation bill, and that measure was before the house longer than any other appropriation measure this session. It took almost as long to pass the tariff bill.

What Did He Mean?

Senator Root of New York had been discussing a number of foreign complications, and then remarked: "There are people who can rub their stomachs and pat their heads at the same time" and he added, after a little pause—"but they cannot do anything else." Now, a wise man like the New York Senator would not make a remark like that unless he meant something by it. I think it applied to the canal tolls as much as to anything else.

An Unusual Combination.

Senator Thomas of Colorado is both a speaker and a listener. He speaks frequently and at considerable length in the senate, but, unlike many other senators, he does not leave the chamber when another senator is talking. As one man remarked, "Few listen to Thomas, but Thomas listens to everybody."

Its Relative Interest.

Former Congressman John W. Dwight of New York is not one of those who believe that there is much campaign material in the repeal of the canal tolls.

He said that he had spent considerable time in the country and among people generally, and it was his estimate that the canal tolls was about seventh on the list of things which interested the people.

He did not enumerate all of the other six, but he placed at the head of the list general business conditions, which were causing a great deal of discussion among business men. Then, of course, there were the Mexican situation, how long congress would remain in session and whether congress would pass trust and railroad legislation.

Although Dwight is a very careful observer, it is probable his observations as to business are among men whose business interests are quite large rather than among that unknown quantity called the common people.

Daughter Complained.

A congressman's daughter went down to the postoffice the other day and tried to send a book to a friend by parcel post. She found that all other things under the sun could go by parcel post save books. Daughter came home and complained to father.

"Did we pass a fool law like that?" he asked. And that is just what congress did, though why no one has been able to say. Certain printers or book publishers or some crowd with a pull figured it out that books had better be excluded from the benefits of parcel post, and it was done. There will be a mighty loud roar along about Christmas time on account of this discrimination.

John Lind's Rest.

It was President Wilson who gave the first information that his special envoy, John Lind, was coming back to the United States. He told a large group of newspaper men that the envoy was coming to this country for a rest. Washington is the health resort of John Lind. He has been sticking mighty close to the national capital, and he does not get ten minutes away from a White House or state department connection. Possibly that is the way he likes to rest.

Child Labor Wins.

It was a rather remarkable victory that was achieved in the house of representatives last week when the appropriation for investigating child labor conditions was largely increased. This is a forerunner of legislation which will use the interstate commerce clause of the constitution for restricting child labor. Quite a number of women came to Washington a short time ago, and they made an earnest canvass of the house in the interest of the effects of their work as shown in the vote.

An Uphill Job.

Congressman Lindquist of Michigan finds that it is an uphill job to put through his bill for pure fabrics and pure leather. He made a strong campaign on that subject, and he believed that he could secure the enactment of the measure after he gave his time to it in congress. He found after he came here, however, that congress has a way of its own and does not push matters at the behest of any one man.

Good to Newspaper Men.

Newspaper men were glad that the secretary of the navy was a newspaper man himself when the fleet was ordered to Mexico. They found Secretary Daniels reasonable in regard to requests made for sending men with two feet to Mexican ports. Many of the papers that desired representation and could show that they ought to be represented were accommodated by being assigned to the different battle-ships. Such assignments were more difficult to get during the Spanish war.

The Personal Equation.

Efforts to amend the present laws relating to the personnel of the army and navy are generally blocked because they interfere with statutes or some particular interest of a few persons. It is almost impossible to pass a law which will benefit all without injuring a few and those few can usually make a strong fight. The military and naval committees of the senate and house have been working on legislation industriously, but they find opposition in almost everything they try to do.

CHARGE ALGARA LEFT LAST NIGHT FOR TORONTO, ONT.

(Associated Press Telegrams) Washington, April 24.—When Eddie Savoy, the veteran colored messenger at the state department delivered Mexican Charge Algara his passport, he performed that highly responsible mission for the third time since he came to the department in Hamilton Fish's day, 44 years ago.

Mr. Algara departed for Toronto, Canada, last night. In this instance as in the others, Savoy was enjoined by the Secretary of State "to bring back written evidence" of its safe receipt by the diplomat. The signature the messenger will file away with scores of souvenirs of his long association at the state department.

Savoy who has seated diplomats at banquets, arranged them solemnly with the regard to precedence at state funerals and looked after their proper placing at all kinds of functions for more than a generation, first delivered passports to Sir Lionel Sackville West, the British minister who displeased President Cleveland towards the close of his first administration by interference in American politics. His second mission was performed 16 years ago when he carried to the Spanish legation here the passports that gave Minister Luis Y. Bernabe, a safe exit from the United States upon the declaration of war with Spain. Among the diplomats at the state department "Eddie" as everybody calls him, is known as the Alpha and Omega of the Spanish War, for at its conclusion he accompanied the peace commissioners to Paris and melted the wax with which the peace treaty was sealed.

COURT ORDER TAKES PITCHER FROM FED GAME

Chicago, April 24.—An injunction restraining George H. Johnson, former pitcher for the Cincinnati National League Baseball Club from playing with the Kansas City Federal League Baseball Club, was issued yesterday by Superior Judge Foell. The Kansas City Federal League club also was restrained from in any way interfering with men now under contract with the Cincinnati club.

The petition set forth that Johnson, although under contract with the Cincinnati club, had signed a contract to play with the Kansas City Federals. The court was informed that losing the services of Johnson would be a material damage to the Cincinnati club. The issuance of the second restraining order was asked on the ground that the Kansas City Federal club had threatened to obtain other players now under contract.

Deputy sheriffs were later sent to the Federal League baseball park on the North Side to serve Johnson and the officials of the Kansas City Federal League Club with the injunctions.

Before their arrival at the ball park Johnson had begun to pitch in the initial game between his club and the Chicago Federals. Court officials declared that until he was served with the injunction he could not be held in contempt of court for playing with the Federal League, but that the court would have complete jurisdiction over him after he had been served with notice of the issuance of the restraining order.

"Should he continue to pitch after the injunction is read to him," said a court official, "he could be held before Judge Foell and made to show cause why he should not be punished for contempt of court."

PORTER STEALS \$35,000 WORTH OF SAMPLE JEWELS

Chicago, April 24.—William J. Anton, jewelry salesman employed by Durand & Co., Newark, N. J., yesterday was robbed of jewelry valued at \$35,000. A porter, whom he had never seen before, disappeared with sample cases containing the jewels. Anton told the police. The salesman said the porter was obtained from a downtown hotel. Stopping in front of a store, Anton told the porter to wait outside a moment. When he returned, the porter and the jewelry had vanished.

\$50 FAVORITE STEEL RANGE AT MILLER HARDWARE CO., BIG BOOKLOVERS' PRIZE

One of the bigger prizes in the Advocate's Booklovers' Contest is this splendid \$50.00 Favorite Steel Range at the Wm. E. Miller Hardware Co. store at 23 West Main street. Everybody knows the splen-

d quality of the Favorite stoves, their beauty, fine appearance and wonderful qualifications are the re-

sult of over sixty years of stove making. Every one would be delighted to have this handsome Favorite steel range come into their home, and your chance is equal to any in this big Booklovers' Contest. See this stove at the Wm. E. Miller Hardware Co. They will be glad to demonstrate its merits to you and also show you all the new things in hardware for spring. Among the many new things in readiness for the spring housecleaning, Mr. Miller wishes to call special attention to a new cleaner he has just placed on the market. It is called Samoline. It washes, cleans and polishes everything. It mixes with water and produces quick results. Samoline contains no acid, grit, benzine, grease, oil or any injurious substance. Samoline is absolutely non-inflammable and non-injurious. Samoline economizes labor and saves money. Call and see for yourself the splendid qualities of this wonderful cleanser. At the same time you can see the splendid \$50.00 steel range in the Booklovers contest.

THE SPIRIT OF PROGRESSIVENESS

We congratulate the management of the Advocate upon the aggressive campaign they are making in their Booklover's contest.

The spirit of progressiveness is manifested on all sides nowadays and in the newspaper field it is especially worthy to see progress.

Cornell is indeed pleased to help the good cause along. It's business is increasing by leaps and bounds and its product of good clothes, merits all the increased patronage it is receiving.

Easter Saturday—the world's fashion day—was a record breaker at Cornell—all the success Cornell has achieved is easily accounted for inasmuch it is a store of high grade merchandise—not high priced.

High grade enters into the very vitals of Cornell principle, more value for the same money and you cannot select a garment that does not carry out this policy to the letter.

Hardly a day passes without some comment from customers who cannot

understand how Cornell manufacturers can turn out such wonderful suits as they do at \$10 and \$15.

Cornell Clothes are positively faultless. They are made of all wool cloth and are the newest patterns. Only the best materials enter into the making of Cornell Garments.

In Cornell factories in the east only the best tailors are employed—men who have had years of experience and who know how garments should be made.

Dear Reader, you'll find that Cornell has special claim to your attention. Their display proves it. Whether a man is a millionaire or a mechanic, Cornell is fully equipped to serve him.

Cornell fits the regularly built, tall, short, thin or stout man not only physically but temperamentally. You'll see styles and woelens and colors and patterns that no custom tailor could even equal. Join the vast army of satisfied wearers of Cornell Clothes and be a patron of the progressive specialty house.

OFFICER FATALLY WOUNDS ROBBER IN GUN FIGHT

Columbus, April 24.—Shot through the back by Motor Officer E. E. Shaw while trying to escape arrest, Frank Higgins, aged 21, of 121 Hayden avenue, is in a critical condition at St. Francis Hospital and may not recover. Higgins, with five others was said to have broken into the apartments of John Wels, saloonkeeper.

Wels returned just as the six were leaving his place. Officer Shaw, overtook the gang on a railroad bridge.

The Officer halted them, but Higgins made a break for the west side of the bridge. Shaw fired three shots into the air, which failed to halt him. Then he started shooting at him and brought him down with the third shot. Officers Greeg, Seltzer, Alkire, Bragg, Robinson and Riesland, who had arrived at the east end of the bridge, took charge of the other five. They threw whatever they had taken from the rooms into the river as Shaw overtook them.

Every U. S. Fighting Craft Will Soon Be Put in Commission

While not expecting foreign complications, the government proposes to be prepared for them. Every fighting craft under the American flag is to be placed in commission.

All the vessels in the antiquated battleships and cruisers, as well as smaller craft, are to be called to the color. The capital ships—that is, battleships, armored cruisers,

and torpedo boat destroyers—are to be concentrated into one formidable fleet.

The blockade work to be done in Mexico will be performed by small cruisers, gunboats, and revenue cutters.

The vessels which are available for commission will bring the total naval strength of the United States up to the following figures:

Battleships, first class.....	8
Battleships, second class.....	25
Armored cruisers.....	10
Cruisers.....	39
Gunboats.....	31
Destroyers and torpedo boats.....	73
Submarines.....	27

OVER HALF OF ALL SICKNESS CAUSED BY CLOGGED-UP WEAKENED KIDNEYS

Hundreds Are Suffering With Kidney Trouble and Don't Know It. Backache, Bladder Disorder and Rheumatism Are The Result.

It is well recognized fact among physicians today, that the greater part of all sickness can be avoided by keeping the kidneys working properly.

This is even more important than for the bowels to move regularly, because the kidneys and bladder are the filters and sewers of the body. If you suffer with pains in the back or sides, bladder or urinary disorders, lumbago, rheumatism, dizziness, puffy swellings under the eyes or in the feet and ankles, nervousness, tired and worn-out feeling, or any of the many other symptoms of kidney trouble, don't neglect yourself another day and run the risk of serious complications. Secure an original package of Croxone, which costs but a trifle, take three doses a day, for a few days, and you will be surprised how entirely different you will feel. Croxone overcomes the very worst cases because it removes the cause

of such troubles. It soaks right in and cleans out the kidneys and makes them filter out all the poisonous waste matter and uric acid that lodges in the joints and muscles, causing rheumatism; soothes and heals the bladder and quickly ends all such troubles.

It is the most wonderful remedy ever made for the purpose. You will find it entirely different from anything you have ever used. There is nothing else on earth to compare with it. It matters not how old you are or how long you have suffered, the very principle of Croxone is such that it is practically impossible to take it into the human system without results.

You can secure an original package of Croxone from any first-class drug store. All druggists are authorized to personally return the purchase price if Croxone fails to give the desired results the very first time you use it.

ASKS DOCTORS TO PRESCRIBE RHEUMA

Agent Greenburg Shows Faith in One Rheumatic Remedy After Six Years' Suffering.

"3839 Cottage Grove Ave., Chicago, Ill., March 17, 1913.—For six years, on and off, just as the weather would change, I have suffered agony from Rheumatism, the pains in my big toe, left foot, knees, hips and groins being almost unbearable. At such times I hardly dared take a step for fear of another attack. I spent many dollars and became thoroughly disgusted with so-called Rheumatic remedies, until I tried RHEUMA. I was buying some liniment when your Peoria, Ill., agents recommended your remedy. I have since asked physicians to prescribe RHEUMA for Rheumatism. The train crew on the Rock Island Railroad, who saw me limping along using a cane, will verify my statements. Yours most sincerely, J. K. Greenburg, News Agent, Rock Island Railroad.

Anybody can afford to pay 50 cents to get rid of terrible Rheumatism, Sciatica, Gout, Lumbago, and that's all RHEUMA costs at Evans' Drug Store and they say if it does not do all that is claimed for it, money back.

RHEUMA costs very little, but it is one of the best remedies you can find to drive Rheumatic poisons from the system and bring back perfect health.

POWDER EXPLOSION KILLS TWO MEN AT DUPONT PLANT

Unlontown, Pa., April 24.—Will Ham Hamilton and Cal Hart, workmen, were killed yesterday when 2500 pounds of powder exploded at the plant of the Dupont Powder Company, near here.

It's all right to sometimes put up a bluff, but don't fall over it.

DRINK HABIT

Scotch Woolen Mills Co's Good Dressers Approve The New Styles

The season of 1914 breaks the chain of similarity in Men's clothes, by advancing the most practical and sensible styles presented for you. Good dressers have adopted the changes with pleasurable appreciation, and the fabrics too, are of that nature which gives the man an appearance of being well dressed.

With this store's new stock, through and through, fashion plates and styles—instructions direct from the best fashion centers of the country. Isn't any wonder The Scotch Woolen Mills Co. are looked to as leaders in men's style apparel? Shrewd and thrifty people wear clothes bearing our label, they know they get the most for the money, they have had others tailor their garments before coming here and they've learned the difference by actual experience. We assure you satisfaction in Quality, Style, Service and a Saving. These assurances are backed by years of making good, and facilities which sustain them beyond the possibility of dispute.

The Growing Popularity of FRONT-LACED CORSETS

May be understood when you see the Greek Maid and Diana front-laced models.

The many satisfied women who are wearing them are the best recommendation we could give.

We have models for every type of figure, from slight to very stout.

Every innovation in the most approved corsets has been used in these corsets, elastic section and ventilated back, also tongue in front.

The model here shown is made of fine linen mesh, triest, very soft and comfortable for summer wear, and we have others in coutil and fancy brocades.

Let us help you select your model—made for your figure.

THIS DEADLY MACHINE GUN SHOOT 400 SHELLS A MINUTE

This machine gun, which Uncle Sam plans to use in large numbers in Mexico, is the deadliest of small arms. It shoots 400 shells a minute and is better than 250 men in number of hits. Photo shows gun in operation.

Married On Eve of Battleship's Trip to Mexico

She is Mrs. Donald Taylor Hunter now. She might have remained Miss Emily Hancock Hughes for a long time. Miss Hughes was engaged to wed Lieutenant Hunter, an officer on the Arkansas, Admiral Badger's flagship, of the American fleet. When the president suddenly issued his order for the sailing of the fleet to Mexico, Lieutenant Hunter came to the conclusion that he did not care to be in a position to sing that old song about the girl he left behind him. He decided he would rather sing of the bride he left behind than of the bride he left behind. Mrs. Hughes was at Fort Howard, Md., when she got a dispatch from the lieutenant to meet him at once for a wedding. She sped on to Fortress Monroe and the ceremony was performed the night before the Arkansas sailed away toward Tampico.

GROUP RELIEVED IN FIFTEEN MINUTES

No need to dose with nauseous drugs or alcoholic syrups. Simply rub a little Vick's "Vap-O-Rub" Group and Pneumonia Salve well over the throat and chest. The vapors inhaled loosen the tough, choking phlegm and ease the difficult breathing. One application at bed time, covered with a warm flannel cloth, is a sure preventive. Vick's is quicker than internal medicines for all inflammations of the air passages from head colds and catarrh—asthma and bronchitis—down to deep chest colds and pneumonia. Try a jar now—25c, 50c, and \$1.00.

SAGE TEA DANDY TO DARKEN HAIR

Look years younger! Use the old-time Sage Tea and Sulphur and nobody will know.

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a 50-cent bottle of Wyeth's Sage and Sulphur Hair Renewer, at any drug store. Millions of bottles of this old, famous Sage Tea Recipe are sold annually, says a well known druggist here because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray, becoming faded, dry, scraggly and thin have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful—all dandruff, sores, scalp itching and falling hair stop.

This is the age of youth. Gray haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur tonight and you'll be delighted with your dark, handsome hair and your youthful appearance with a few days. Agents, Hall's drug store.

The Union Cottage Prayer meeting will be held at the home of Mr. and Mrs. Settles, 179 South Fourth street this evening at 7:30 o'clock. Everybody invited.

You can't make a German mad by telling him the worst is yet to come.

NEWARK STEAM LAUNDRY ESTABLISHED JUNE, 1884

In those days when laundry work was in its infancy we did everything by hand.

Today the laundry is one of the leading industries of the country. The Newark Steam Laundry gives you the same service that it has given for twenty-seven years. It has grown from a small plant with a few employees to a large plant with a staff of 44 employees. The laundry is now one of the most modern in the country. It has the latest improved machinery, including the latest improved motor power, and is able to give the best service.

The Newark Steam Laundry uses exclusive motor power, and has the latest improved machinery, including the latest improved motor power, and is able to give the best service.

Mrs. Kate D. Richardson, of Beasley, Essex Co., Va., says: "I esteem it a pleasure to testify to the wonderful curative qualities of Dr. Pierce's Favorite Prescription. For some years I suffered greatly with weakness, nervousness, and general debility. Several physicians but gradually grew worse. One of my friends told me of the good results of your 'Favorite Prescription.' I went to the drug store and got a bottle, and after taking it with the 'Pleasant Pellets' I commenced to get better. I never knew what happiness was, for I was always sick and complaining and made others as well as myself unhappy. So you see what a debt I owe you!"

These 40 Features

which we have described in detail this week, are backed by the full guarantee of the Hoosier Company.

For 16 years this company has built the famous

HOOSIER

and in all that time has never added an "improvement" that proved a failure. But unless you sit down in front of this beautiful cabinet and see its wonderful conveniences yourself you cannot hope to realize how much labor this new Hoosier would save you.

(1) See for instance, how the big, roomy, metal table, slides out 16 inches over the base. Notice how an exclusive Hoosier patent prevents this table from warping.

(2) Observe especially how cleverly the inside of the door space above the table is utilized to bring things you need often nearest your hand. The sliding table enables you to open the doors without removing anything from the table, and the inside of the doors save any danger of knocking things over by reaching across the table for those supplies you use scores of times daily.

Our window, displaying these features in "White Beauty," has caused more talk than any window display we've ever had. SEE IT. Tomorrow is the last day.

The End of a Great Offer: Tomorrow Your Last Chance to Have the New Hoosier Put in Your Home for \$1

Will you decide now to come down tomorrow and settle the matter once for all, or will you let tomorrow drift by—and then realize you are too late to decide; because the Hoosier Plan of Sale positively will close tomorrow?

Scores of other women are in your state of mind. They are reading this final call tonight. And many who have postponed as you have are making up their minds tonight to come down tomorrow for a final decision.

A choice still remains between "White Beauty" (selected by 3 out of 4 women) and the Hoosiers with "Oak" interior. But the numbers are few and you cannot hope to get one if you delay. You incur no obligation by coming, so let other matters wait tomorrow while you settle this important question.

You could scarcely imagine a decision of more importance to you. For the new Hoosier is a wonderful labor-saver—already by 700,000 women. It saves miles and hours of valuable time. It gives health and good looks. It is very low in price—and on the liberal terms of the Hoosier Plan is the Cheapest Kitchen Cabinet Ever Built.

The Hoosier Plan Is Simply This:

1. \$1 puts any Hoosier you select in your Home.
2. \$1 weekly quickly pays for it.
3. The Low Cash Price fixed by the Factory prevails strictly.
4. The Sale is under direct supervision of the Hoosier Company.
5. No interest. No extra fees.
6. Your money back if you are not delighted with your Hoosier.

What Possible Reason can remain to deprive you of the use of this Hoosier? Only the small number of Hoosiers left and the certainty that more women will come than we can supply. Every day we have enrolled more women on the Hoosier plan than we expected. There are fewer cabinets left for tomorrow than we have sold on any one day. These few undoubtedly would be taken without this ad, but we make this final announcement to keep our promise to advise you of the last day.

We Now Have Kept Our Promise to You

Please remember, if you come too late, that we have told you every day of the progress of this sale, and that we now give you the final date in time for you to still enroll if you act early tomorrow.

YOU NEED IT YOU CAN AFFORD IT YOU CAN HAVE IT TOMORROW

(5) In your examination tomorrow, be sure to note carefully the New Shaker Sifter we've already described. It shakes flour through instead of grinding it through. It cannot wear out. It cannot grind grit or dirt through. It makes flour fluffy and light. The only thing of its kind. An absolutely new helper in your kitchen.

These and 35 other conveniences are worth examining tomorrow—even at some personal effort on your part. Tomorrow is your last chance to decide whether you want them now on the easy Hoosier Plan.

DAINTY STENCILLED BEDROOMS.

You can finish your bedroom in the daintiest shade of blue, pink, tan or any other color, with stencilled garlands of roses, if you use Spartan Art Wall Finish.

You might hunt all season before finding anything half so pleasing in Wall Paper.

A room so finished is strictly sanitary and germ proof, the walls and ceiling can be washed down same as the woodwork.

Spartan Art Wall Finish is an oil paint that dries with a

hard, dull, flat surface. It combines the best qualities of a good calcimine or fine enamel paint with the decorative effect of fine fresco work.

It is economical, has great covering capacity and produces a velvety, elastic finish that will not crack or peel.

This is the wall finish your painter can recommend.

What Is Woman's Beauty But Health?

And the Basis of Her Health and Vigor Lies in the Careful Regulation of the Bowels.

If woman's beauty depended upon cosmetics, every woman would be a picture of loveliness. But beauty lies deeper than that. It lies in health. In the majority of cases the basis of health, and the cause of sickness, can be traced to the action of the bowels.

The headaches, the lassitude, the sallow skin and the listless eyes are usually due to constipation. So many things that women do habitually conduce to this trouble. They do not eat carefully, they eat indigestible foods because the foods are served daintily and they do not exercise enough. But whatever the particular cause may be it is important that the condition should be corrected.

An ideal remedy for women, and one especially suited to their delicate requirements, is Dr. Caldwell's Syrup Pepsin, which thousands of women endorse highly, among them Mrs. C. S. Vance, of 511 S. Ray St., New Castle, Pa. At times she had spells of indigestion so severe that she thought she would die. Syrup Pepsin regulated her stomach and bowels, and she attributes her excellent health today to this remedy.

All the family can use Dr. Caldwell's Syrup Pepsin, for thousands of mothers give it to babies and children. It is also admirably suited to the requirements of elderly people, in fact to all who by reason of age and infirmity cannot stand harsh salts, cathartics, pills or pur-

MRS. C. S. VANCE

gatives. These should always be avoided, for at best their effect is only for that day, while a genuine remedy like Syrup Pepsin acts mildly but permanently.

It can be conveniently obtained at any drug store at fifty cents or one dollar a bottle. Results are always guaranteed or money will be refunded. You will find it gentle in action, pleasant in taste, and free from griping, and its tonic properties have a distinct value to women. It is the most widely used laxative tonic in America today and thousands of families are now never without it.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

OPENS UP NOSTRILS, CLEARS HEAD, ENDS COLDS OR CATARRH AT ONCE

Instantly Relieves Swollen, Inflamed Nose, Head, Throat—You Breathe Freely—Dull Headache Goes—Nasty Discharge Stops.

Try "Ely's Cream Balm."

Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning the catarrh, cold-in-head or catarrhal sore throat will be gone.

End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of

the nostrils, penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharge and a feeling of cleansing, soothing relief comes immediately.

Don't lay awake tonight, struggling for breath, with head stuffed, nostrils closed, hawking and bloating. Catch a cold, with its running nose, food mucus dropping into the throat, and raw dryness is distressing but truly needless.

Put your faith, just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

REFUGEE TRAINS ARE LEAVING THE MEXICAN CAPITAL

(ASSOCIATED PRESS TELEGRAM)

Vera Cruz, April 24.—A refugee train from Mexico City carrying 150 Americans, 100 Germans, 360 Spaniards and Mexicans, and 50 Englishmen arrived here last evening under the personal conduct of Thomas B. Hoher, charge d'affaires of the British legation.

The exodus from the capital was arranged through the joint action of the British and German diplomatic officials with the war office. The train proceeded slowly and with many interruptions reached the Mexican outposts at Telleria at noon where it was detained for two hours, while a search was made by the Mexicans for railroad officials, four of whom were arrested and held until General Maas, at Soledad was communicated with and their release ordered.

Those arrested were General Superintendent Comfort, Superintendent of Locomotive Blake, National Superintendent of Locomotive Burk and General Superintendent Rowe, all of whom had been formally discharged by the Mexican government when the roads were taken over.

The passengers on the trip suffered little inconvenience, all who desired being furnished with Pullman accommodations. There were 14 cars in the train and a majority of the passengers were women and children.

About three miles from Vera Cruz a section of track nearly a mile long was found torn up. At this point the refugees walked, carrying their baggage to a train on the Vera Cruz end of the break, which the British co-operating with the Americans had sent out to meet the train from Mexico City. A detachment of British marines, unarmed, acted as an escort to the refugees on this last stage of their journey to Vera Cruz.

From the refugees it was learned that on Wednesday there was a repetition of street demonstration by mobs such as had also occurred early in the week. In Cinco de Mayo avenue, one of the principal streets, an American flag was thrown to the ground in front of a procession and trampled over by the demonstrators. It was then dragged out and the performance repeated. Later it was torn to shreds amid the yells of the crowd and handclapping from spectators in windows and balconies.

A small gathering of Mexicans at the American embassy corner, Tuesday night, listened to speeches from street orators. The crowd, however, was orderly, probably because a heavy guard of police was on duty there.

Willie Hoppe Sets World's Record At New Billiard Game

New York, April 24.—Willie Hoppe, the conqueror of ivory caroms and all opponents, scintillated at his best last night and created a new world's record run. The young magician of the cue completed 303 caroms at the 14.1 inch balk line game, which materially assisted in his defeating the veteran, George F. Slosson, by 400 points to 79.

It was solo billiards. But the brilliancy of the young champion's performance in the newly instituted titular tournament held the crowd spellbound at the Hotel Astor. The news spread that Hoppe was breaking all records and spectators quickly filled the room, applauding the rapid series of splendidly conceived caroms. Slosson, after the match that it was one of the best exhibitions of close play he had ever witnessed.

Divorce Petitions.
Two divorce suits were filed Friday in Probate court, in both of which the wives were defendants. William Brown, who was married to Hattie Brown in Cardington, O., Sept. 10, 1896, asks divorce on grounds of extreme cruelty. He charges that she used indecent language toward him and accused him wrongfully of intimacy with other women; also that she neglected her household duties. They have three children, Annie, 13, Lawrence, 10, and Gerald, 8. Attorney J. W. Hornor represents the plaintiff.

Walter A. Basehart asks divorce from Annie M. Basehart on grounds of three years' wilful absence.

Common Pleas Court.
The Common Pleas petit jurors were excused until May 18, at which time the trials of criminal cases will begin.

The Court of Appeals made an assignment of appeal cases on Thursday afternoon commencing April 28.

Gas Company Case.
Prosecutor J. Howard Jones, in a motion filed against the Newark Natural Gas & Fuel company, Friday, asks common pleas court to strike from the defendant company's answer twelve items, on the grounds that they are irrelevant to the matter at issue.

Included in the statements which the prosecutor would have stricken from the gas company's answer to the suit are: That the company's wells are practically exhausted and the leaseholds are of little or no value as gas territory; that from

subsequent to 1898 up to 1911 the company furnished gas to the citizens of Newark for 20 cents per thousand. Another reference that is asked to be stricken out is the statement that the contract between the city and the gas company was modified by the action of both parties to it and that the gas company was empowered to sell at 18 cents net.

Marriage Licenses.
Howard B. Smith, 27, traveling salesman, Pataskala, and Della F. Moore, 26, Pataskala. Rev. J. B. Williamson to officiate.

Administrator Appointed.
John C. Wood was appointed administrator of the estate of Sidney J. Wood; bond \$2000.

Pike Survey.
County Engineer Swartz and his assistant's late Thursday completed the survey of the Croton-Sunbury pike. It is planned to advertise the improvement about May 1, so work may begin early in June. It is hoped to complete the pike this year.

To Improve Road.
County Engineer Swartz, Friday, advertised one mile of surface improvement on a stretch of the Newark-Zanesville highway, just east of the Newark City limits. The contract will be let May 9. A composition treatment composed of Taravia "B" and slag screening will be used. This particular stretch of roadway has been subjected to heavy use since its improvement and it has proven a popular place for motoring parties to test speed of their cars and motorcycles.

Ralph Brumbach spent Thursday in Athens in the interest of the Brumbach company, which has a commission house in that city.

SAY STRIKERS CAPTURED TWO TROOP TRAINS

(ASSOCIATED PRESS TELEGRAM)
Trinidad, Colo., April 24.—The special train bearing troops into the strike zone this morning moved slowly southward from Walsenburg in the direction of the rugged hills near Monson and Rugby, where an armed force, estimated at 1,000 is believed to be assembled. Later it was reported that the train had halted near Monson and that the militiamen were detaining.

The entire force will be kept together for the present, Gen. John Chase said.

While the fighting was raging at the mines about Aguilar during the last five days, no disturbances occurred in the town. The strikers of the Aguilar district are believed to have moved north in the direction of Ruby where another large body is said to be stationed in the hills.

At 3 o'clock this morning the strikers were aroused by the clanging of a bell. An outpost had seen a light which he supposed to be the headlight of the troop train locomotive. All preparations for an attack had been completed when it was learned that a mistake had been made.

Shots in the hills shortly after 4 o'clock indicated that the armed men had taken up a position over an area extending from Monson south to Ruby station, a distance of more than five miles.

Fighting between state troops and armed strikers began shortly after 11 o'clock at Bunker Hill, a short distance south of Monson, according to reports just received here. The strikers are reported to have captured two trains. The cavalrymen have tured their horses loose and are encircling.

Aguilar, normally a thriving mining and agricultural town of 200 population, is almost depopulated today. Terrorized by the events of the last four days during which the strikers colony at Ludlow was wiped out in a battle between strikers and militia and the mining camps of Empire, Southwestern, Borden and Royal were wrecked or burned, the citizens have fled in all directions.

Trains which reached Trinidad last night were crowded with refugees from the center of the disturbed district. Many families have also fled to neighboring ranches and other towns out of the strike zone.

The town's water supply is cut off by the destruction of the pump plant which also supplies the camps at Hastings, Delagua and Berwind.

Similar conditions exist in probably a dozen mining camps in Huaciano and Las Animas county today.

TEXAS MILITIA WILL MOBILIZE FOR BORDER DUTY

(ASSOCIATED PRESS TELEGRAM)
Austin, Texas, April 24.—An entire regiment of the Texas national guard was today ordered to mobilize at Brownsville for border patrol duty. Governor Colquhoun, it also became known, will order the other two regiments to the border unless a request to Secretary of War Garrison for additional protection for Texas border points is granted.

Answer to Thursday's puzzle—Catcher.

Only a Small Difference

Exists, after all, between the man who is prosperous and the one who is in debt.

A man who does not owe a dollar anywhere and has a hundred dollars in a savings account may not be wealthy, but he sleeps nights and has a substantial basis for being contented and seeing reasonable prosperity in sight.

The man who owes a hundred is hard up, harassed and despondent.

The difference between the two is just \$200, a sum that could be saved in 100 weeks with only \$2 a week.

For lack of that effort one man stays hard up all his life, maybe, and another makes the effort and is always contented.

ILLUMINATION BRILLIANT AT ELECTRIC SHOW

One hundred vari-colored lights and the rays from a 2000 watt nitrogen lamp adorn the front of the Avery-Lock Electric company's store in North Third street, where an electrical demonstration is being held, for three days, Thursday, Friday and Saturday.

The front of the store has been transformed into a cozy dining room nicely fitted, and the wizard electricity prepares an entire meal. Electricity will toast, bake, fry, or boil the food and an electric heater, sweeter and electrically run sewing machine are shown. The demonstration by the Westinghouse company of Pittsburgh is being conducted by Miss Sigourney J. Frush of Pittsburgh.

SEE THE WORLD'S GREATEST WALKER AT THE WALK-OVER

The world's greatest walker is in Newark this week at the Walk-Over Boot Shop. He encircles the globe many times an hour and does it in the display window of this store.

The wonderful little Walk-Over man, on his tireless trip over all obstacles, has long been a well-known figure advertising the famous Walk-Over shoes, but this one has all former records shattered. With ease and grace this little man performs the feat of circling the globe and it's well worth stopping at the Manning Bros. Walk-Over Boot Shop and see it for yourself.

The flags of many nations on the globe make this wonderful reproduction very effective. The Walk-Over manufacturers are this year celebrating their fortieth anniversary. The wonderful record made in this time is truly amazing. It started 40 years ago in one small shop and today from the immense factories in Brockton, Boston, Middleboro, North Adams and South Braintree, are turned out 20,000 pairs of shoes a day. These shoes are now sold in 66 countries of the world.

Manning Bros. show an unusually attractive line this spring. Besides Walk-Over shoes, they carry the Manning Manhattan, a fine \$3.00 shoe.

Two prizes in the Advocate's Booklovers' contest are from this store. Each are \$5.00 orders for any kind of footwear in stock.

THREE CHILDREN DIE OF BURNS

Holland, Mich., April 24.—Fire which today destroyed the home of John Cloegman in this city, resulted in the death of three of Cloegman's four children and probably fatal injury of the mother, who was severely burned. The children ranged in ages from 1 to 4 years. They were suffocated.

WANT TO KNOW THE STATUS OF MILITIA CALL

(ASSOCIATED PRESS TELEGRAM)
Washington, April 24.—Proceedings were begun in the Supreme court today to determine whether the national guard may be sent to Mexico or other territory outside the United States without first being mustered in as volunteers. The proceedings are in the nature of an appeal from the action of Judge Day in the Federal court in northern Ohio, in dismissing an action of Lieutenant Colonel Daniel T. Stearns against Adjutant General George H. Wood, of the Ohio national guard, growing out of preparations for militia movements outside the country.

"Why are you so anxious to sell me this particular brand of face powder?" she asked. "Why, it actually tastes just as good as it smells," replied the drug clerk, confidentially.

Music of course is a fine thing, but it isn't the singing bee that produces the money.

NOTICE OF APPOINTMENT.
Estate of William C. Wood, deceased.
John C. Wood is hereby called to the probate court to show cause why he should not be appointed executor of the estate of said deceased. Dated this 24th day of April, 1914.

NEWARK MAN ON U. S. CRUISER AS CHIEF ENGINEER

Among the Newark and Licking county men in the government military service who are taking part in the Mexican trouble, probably none is more actively engaged at the scene of the present disturbance than Elmer Samuelson, a former Newark boy, who is chief engineer of the U. S. cruiser Chester.

The Chester is at present lying in Tampico harbor, awaiting developments with the expectation that any moment may bring orders for action should the situation warrant it at Tampico.

Engineer Samuelson is the son of the former manager of the E. H. Everett & Company plant, now the American Bottle company. He was located here in that capacity for ten years, and left here only a very few years ago to go to Terra Haute, Ind., where he is manager of the Root Bottle company's plant.

The son, who is now aiding in the movements of the cruiser, is very well known here.

"I'VE STRONGER MEN BEHIND THOSE GUNS"

One of the greatest generals of the last century was asked whether he was using better cannon and better powder in one wing of his artillery service than in another, the cannon-adding being so much more effective.

"Better cannon and better powder, yes," was the reply. "But, the real point is I've stronger men behind those guns!"

Not stronger physically—stronger in know-how. Men who would have

fought well with poor guns and inferior powder, but who, provided with the best of both, were invincible.

This is paralleled by the national distribution system of Stein-Bloch Smart Clothes for men and young men.

First of all, we provide the best guns and the best powder by careful choosing of fabrics, by creation of right styles, by insisting upon right workmanship to the very last stitch. Then for the men behind the guns! In every city and town where Stein-Bloch clothes are sold the strongest men have been chosen to sell them—houses whose word is as good as that of Stein-Bloch—artillerymen as good as the powder and guns.

That has made a winning combination for 39 years. And it will for a good many years to come.

The Stein-Bloch company make the greater quantity of Hermann's Smart Clothes at \$15, \$20 and \$25.

The fine \$25.00 Stein-Bloch suit that is prize No. 30 in the Advocate's Booklovers' contest, was purchased from George Hermann's clothing store. Drop in and see his splendid line so you'll know what's coming to you if you are the lucky one.

New York Stocks.
(ASSOCIATED PRESS TELEGRAM)
New York, April 24.—Bear pressure was directed against the stock market at the outset today. The leading speculative stocks, particularly Reading and Union Pacific, were sold in large amounts. In many instances the lowest quotations of the present decline were reached. The depressing influence of the Mexican situation was augmented by a drop of American stocks in London before the opening here. Canadian shares sold down 2 1-2 to 191 1-4. Mexican Petroleum lost 5. A dozen other issues fell a point each.

Chicago Grain and Provisions.
(ASSOCIATED PRESS TELEGRAM)
Chicago, April 24.—Fresh rain falls reported today from Nebraska and Kansas in addition to the showers of the previous day caused the market here to take a downward bend. Selling however was not heavy, and the buying was fair on the dip. Prices opened unchanged to lower, rallied a trifle and then underwent a moderate general sag.

Slowness of cash inquiry had a depressing effect on corn. It was denied that Argentine sales were being cancelled. After opening a shade to 1-4@3-8 the market eased off all around. Oats weakened on account of the rains. About the only demand was in cash houses. Provisions suffered from lack of support. Firmness in the hog market was generally ignored.

TRINITY CLUB IS ADDRESSED BY HON. T. S. HOGAN

The supper and smoker given Thursday night by the Trinity Men's club in the parish house was one of the most pleasant functions ever enjoyed by the club members and their friends. The feature of the evening was the address delivered by Hon. Timothy S. Hogan, the brilliant attorney general of Ohio, who came over from Columbus for the occasion.

His talk was free from any political partisanship and was along broad lines of righteousness in the individual, which should have, and would

TIMOTHY S. HOGAN.

have its exemplification in governmental activities, when public officials did their duty without fear or favor. In illustration of this point he cited President Wilson's conduct during the Mexican crisis which has been attended with such grave results. The speaker said in this connection: "The American people can always be trusted to do right when they are informed upon any subject, and the mistakes they make will soon right themselves when full knowledge of circumstances is vouchsafed them. During the present Mexican difficulty

Ambition Pills FOR NERVOUS PEOPLE

The great nerve tonic the famous Wendell's Ambition Pills that will put vigor vim and vitality into nerves tired out, all in, despondent people in a few days.

Anyone can buy a box for only 50 cents, and T. J. Evans is authorized by the maker to return the purchase price if anyone is dissatisfied with the first box purchased.

Thousands praise them for general debility, nervous prostration, mental depression and unsteady nerves caused by the over-indulgence in alcohol, tobacco, or overwork of any kind.

As a brain food or for any affliction of the nervous system, Wendell's Ambition Pills are unsurpassed, while for hysteria, trembling and neuralgia they are simply splendid. Fifty cents at T. J. Evans' and dealers everywhere. Mail orders and charges prepaid by Wendell's Pharmaceutical Co., Inc., Syracuse, N. Y.

the high-minded unselfishness and nobility of character of President Wilson stand out pre-eminently, and are a reflection of the best thought of the people. He has acted with great fairness and broad statesmanship.

"In spite of the exasperating provocations, and in view of the fact that he had ample justification to plunge into a war which would have been popular, and accompanied with much self-glorification, he has steadily held back until forced by untoward circumstances to uphold the dignity of our nation and the honor of our flag.

"In his present attitude he has the support of a united country, which will rally to him with one accord because they believe the President to be honest, sincere and able."

After an informal reception held by Mr. Hogan he was escorted to the Pennsylvania depot and went back to Columbus at 9:50 o'clock.

POWER PLANT TO BE CUT OVER ON SUNDAY A. M.

During the early morning hours of next Sunday employees of the Ohio Light and Power company will "cut over" all service lines in the city from the old plant to the new plant which has recently been completed on the site of the old Thomas foundry, directly south of the B. and O. passenger station.

Officers of the company state that consumers may be inconvenienced for a short time during the early hours but that everything should be in good condition by 10 o'clock.

Everything is in readiness for the cut over and a sufficient force of men will be employed to insure the greatest dispatch in making the change so that the interruption in the current will be as brief as possible.

The current will be shut off shortly after daybreak and the work of making the change will be started immediately and rushed as rapidly as possible. It is hoped that by 10 o'clock that the change will be completed. A number of churches use electricity in operating the organs and it is planned to have the change made so there will be no interference with the morning worship.

"We trust that the consumers will be patient with us for a few hours," said one of the attaches of the local office Friday. "The interruption in the service is absolutely necessary and we will not inconvenience the people a minute longer than is absolutely necessary. We ask, also, that any consumer who have any trouble after noon Sunday, to notify our office promptly and we will investigate the matter at once."

The local plant has been in operation since last Sunday when the north end circuit was cut over and connected with the new generators. The east and west end circuits and the downtown circuit will be cut over Sunday.

MARINES CHEERED AS THEY MARCH DOWN FIFTH AVENUE.

(Associated Press Telegram)
New York, April 24.—A detachment of 189 marines in heavy service impediments marching down Fifth avenue yesterday furnished the first martial display in connection with the hostilities in Mexico seen on the streets of New York. The detachment, made up of marines from the barracks at Fort Mifflin, N. H., and Boston, marched from the grand central to the Pennsylvania railroad station where they were detained for Philadelphia to visit the marines to sail on the Morro Castle.

The rhythm of the footsteps of the marchers brought a crowd to Fifth avenue and others frequent the few blocks of the city of march. The detachment was joined in Jersey City by a band of seventy-eight men from the New York navy yard.

VENEZUELA'S PRESIDENT, TAKES COMMAND OF ARMY: WAR SECRETARY ELEVATED. Caracas, Venez., April 24.—General V. Marquez Bustillo, secretary of war has been chosen provisional president of Venezuela in place of General Gomez, who becomes commander-in-chief of the army. It is said that after a year General Gomez will again stand for the presidency which does not allow a president to serve two consecutive terms.

Dr. Jesus Rojas, elected vice president of the republic, will in session for forming a new institution.

Proof, Proof and More Proof

THAT QUAKER HERB EXTRACT HAS PROVEN TO THE PEOPLE TO BE THE GREATEST MEDICINE EVER MADE.

Old people can be cured as well as young. Here is a testimonial from Mr. R. W. Carner, aged 73, who resides at 1121 Patterson avenue, S. W., Roanoke, Va. Suffered with catarrh, stomach trouble and constipation for many years, had constant headaches, had smothering spells so bad that he would have to sit up at night on account that his throat bothered him so much that it seemed to cut off his breath. His stomach was swollen to almost twice its natural size. Had to take something all the time for constipation, and had such pains around the heart that at times he would fall upon the street. He had tried everything he could get for his illness but nothing seemed to relieve him very much. He heard of the Quaker Health Teacher and the Quaker Remedies at Humphries & Webber's Market Square Drug Store, and at first was skeptic, and did not know whether to try them or not, as he thought they might be like all other

he tried and may not receive any benefit from them, but after reading the testimonials of the people he knew right in Roanoke and the benefits they had received from them, he decided at least to give them a trial. Called in and had a talk with Gaskins, the Quaker Health Teacher, and purchased one bottle of Quaker Herb Extract and after taking two-thirds of it came back with a smile to tell the great benefits he had received. Mr. Carner said: "My headache is gone and I have no more of those smothering spells and I can lie down and rest in peace through the night, and my stomach is back to its normal size, and haven't any pains around my heart since I have been using the extract, and am not constipated at all now and feel better in general health than I have ever felt for many years, in fact, I feel like a new man."

Mr. Carner says any one who wishes may call on or write to him and he will gladly tell them what the

Quaker has done for him. The Health Teacher still invites anyone who suffers with catarrh, stomach, liver, kidney or bladder troubles, male or female weakness, or worms of any kind to call and have a talk with him. It costs you nothing to have a talk.

He will not remain here permanently, and if you miss your chance to get cured when you know your friends are getting well, you may regret it, so call today. He can be seen at the drug store daily from 9 a. m. to 8 p. m. and on Saturdays till 10 o'clock at night, and still offers Quaker Extract at six bottles for \$5.00, three bottles for \$2.50, or single bottle \$1.00. Quaker Oil of Balm for all aches and pains, 50c. If you cannot call, order by mail and goods will be sent you on receipt of price. Order by express or postoffice money order. So don't put it off, call today at the City Drug Store, Third and Main streets, Newark, O., and see Gaskins—he proves what he says.

Trustees of I. O. O. F.
There will be a meeting of the trustees of the various branches of the Odd Fellows lodge at the I. O. O. F. building in West Main street, Saturday evening, May 2, at 6 p. m.

Condition Critical.
The condition of Mrs. John Poterfield, residing in South Williams street, who underwent a serious operation at the Newark Sanitarium on Thursday is regarded as critical.

Hand Injured.
William Luther, an employee of the Huber Bakery of South Sixth street, suffered a slight injury to his left hand Thursday afternoon when it was caught in a scraper. He was able to be on duty Friday.

Transients were Numerous.
Two Florida negroes and a half dozen slaves, all of whom told Mayor Higbee that they were strangers in town, were arraigned in police court Friday for loitering. They were given suspended work house sentences and ordered out of town.

Undergoes Operation.
The 10-year-old daughter of Mrs. Frank Graef, residing in Pataskala street, underwent an operation on Thursday and her condition is very satisfactory. The operation was performed by Drs. Harry Postle and J. T. Harbottle.

Attends Spring Meeting.
Robert Henry is at Lexington, Ky., to attend the opening of the spring racing meeting at the famous Kentucky track, and also to meet his old friends. Trainer Frank Weir and Jockey McCabe. Mr. Weir has Old Rosebud at the track and is conditioning him to the Kentucky derby at Churchill Downs on May 2. Mr. Henry will witness the Phoenix Handicap this afternoon, and will probably leave for home tomorrow.

AFFIDAVITS MAY BE FILED AGAINST OWNERS OF POULTRY

"I had hoped that the warnings from this office and the office of the chief of police, would prevent the necessity of making arrests for allowing chickens to run at large," said Mayor Higbee Friday morning. "But it looks as though an arrest or two with a heavy fine, would be necessary before the people realize that we mean business. The officers don't like to arrest the usually peaceful citizen but it will be done. The ordinance prohibits the practice of allowing chickens to run at large and the offense is deemed a misdemeanor punishable by a fine of \$1 to \$500. If arrests are made no plea of ignorance of the law will be of any avail."

More than fifty per cent of all the complaints received by the mayor and police department has to do with the annoyance of chickens and the officers have about reached the limit of their patience.

PHILADELPHIA WILL HONOR THE DEAD MARINES.
Philadelphia, April 24.—City authorities, members of the Grand Army of the Republic, military and patriotic societies are planning an impressive double funeral for the two Philadelphia boys, Charles Allen Smith and George Poinsett, who met death at Vera Cruz. Both were 20 years old and were serving their third year in the navy. Funeral services, according to the plans, will be held in historic Independence Square.

Smith was the principal support of his mother and three young sisters.

JAMES' HEADACHE POWDERS—GREAT

Get a dime package—in a few moments the worst headache fades away.

You can clear your head and relieve a dull splitting or violent throbbing headache in a moment with a Dr. James' Headache Powder. This old-time headache relief acts almost magically. Send some one to the drug store for a dime package and a few moments after you take a powder you will wonder what became of the headache, neuralgia and pain. Stop suffering—it's needless. Be sure you get what you ask for.

Mrs. Smith, who lives in the mill district of Kensington, is prostrated with grief. On the day she was fatally wounded she received a letter mailed from the battleship New Hampshire in which the young seaman spoke of his delight at the thought of active service. The letter made her anxious and Mrs. Smith wrote in reply: "Please take care of yourself, for I can't bear the thought of anything happening to you."

When she was called to a telephone in a near-by store today and received the news of her son's death she fell in a faint and was in a serious condition last night. Physicians fear she will not be able to stand the shock.

The man who forgets his wife's birthday may square himself by telling her she looks just as young as she did a year ago.

FINES AGAINST SPEEDERS WILL GROW RAPIDLY

In fining an automobile speeder in police court Friday morning, Mayor Higbee made it known that in the future no \$5 fine will be assessed for this offense. The bargain days are over for the violators of the automobile and motorcycle speed limit and each arrest will see a larger fine assessed until the practice of disregarding the safety of others is discontinued. The defendant in court Friday morning was fined \$5 and costs for exceeding the limit in Elmwood avenue. He paid the amount assessed.

TRINITY A. M. E. CHURCH HEARS EVANGELIST

A good congregation greeted the evangelist last evening. Her subject was "Popular Amusements." She gave a splendid talk, closing with a passionate plea for sinners to come to Christ. Her subject for tonight will be "The Way of the Cross." Text, Matthew 16:24, "If any man will come after me, let him deny himself, and take up his cross, and follow me." Song service will begin promptly at 7:30 p. m.

AKRON STOMACH VICTIMS ARE RESTORED BY MAYR'S REMEDY

A. M. George Gets Rid of Malady After Several Years of Suffering.

A. M. George, who has offices at 304 Walsh Building, Akron, was for many years a sufferer from stomach ailments. He tried a good many treatments and took many medicines.

At last he found Mayr's Wonderful Stomach Remedy. The relief he sought came swiftly. He wrote:

"It is wonderful what results I received. I haven't had a symptom of the old trouble that I suffered for several years. Mr. Felver, my neighbor, who sent for some, claims that he is a different man altogether, and his wife, who has been in poor health for several years, thinks it is doing her good."

Just such letters come from all over the country. Mayr's Wonderful

Stomach Remedy convinces with the first dose—no long treatment. Mr. George's experience is typical. Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and poisonous matter. It gives quick relief from stomach, liver and bowel troubles. Many say it has saved them from dangerous operations and many are sure it has saved their lives.

Because of the remarkable success of this remedy there are many imitators, so be cautious. Be sure it's MAYR'S. Go to Hall's Drug store, and ask about the wonderful results it has accomplished—or send to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful effects.

AMERICANS

(Continued from Page 1.)

ship Louisiana arrived today and immediately landed detachments of marines and bluejackets. The Mississippi also prepared to send ashore 700 marines and a battalion of blue-jackets as well as two aeroplanes.

The marines who had been holding the outposts were relieved today by a battalion of bluejackets. Detachments of bluejackets and marines are quartered all about the city, while squads patrol the streets.

By tomorrow the total force on shore will probably reach 6,500 men. The outposts have been equipped with twelve machine guns and several three-inch field pieces which were taken to the front today by teams of six horses to each gun. The animals were frightened by the unaccustomed work and the marines had a hard struggle with them.

Rear Admiral Fletcher headquarters at the Terminal Hotel are guarded by machine guns while seven field pieces are held in reserve in the vicinity. The commissary, ordnance and quartermaster's departments worked very efficiently along the docks. There was no pile of merchandise as is usually the case where armed forces are landed.

All supplies were promptly distributed among the troops, who also received distilled water from the ships under the superintendence of the medical department.

A supply of ammunition was also found here. The building had been protected from the gun fire of the war ships and the recent fire of the landing parties by the hospital flag, although it appears certain that there was much sharp shooting from the roof of the hospital.

Conditions in the hospital were found to be so bad that three navy surgeons were detailed today to assist the hospital authorities. All the American wounded have been taken on board the Solace. The navy surgeons are enthusiastic over the care and attention they are able to give the stricken men owing to the excellent equipment of the vessel.

Until the arrival of the Solace the wounded and the prisoners had been sent on board the Prairie which soon became crowded. That vessel is ill supplied for hospital work. The medical department today made an inspection of the sanitary conditions of the city and opened negotiations with the Mexican health officials in the hope of inducing them to return to work.

With Commander Herman O. Stockton of the Prairie appointed commander of the port, the American authorities today undertook the administration of the customs. For a time there will be in reality two customs houses. Mariano Ascaranza, the Mexican customs collector, is not inclined to serve under American supervision, but declared he will take charge of them and operate a business which was in them at the moment of occupation. Commander Stockton and his men are to look after the new business and believe that they will have no difficulty in retaining a few of the old officials. One of the reasons for even Ascaranza for declining to continue his duties was that he would be violating the Mexican law as the port of Vera Cruz has been

closed by orders from the federal capital.

Rear Admiral Fletcher has begun the general supervision of the city and he and his staff are working very arduously in straightening out local affairs. Very few of the former heads of the city departments have returned to take up their positions and most of them seem to have left the city.

The sanitation plant of the municipality was placed in operation again today under a new chief and the street car lines also have resumed partial service.

Numbers of shops and restaurants were opened yesterday and crowds walked about the streets and the open places. Except for the passing of an occasional patrol the city seemed to have resumed almost normal conditions.

Bands from the American fleet played at various parts of the city yesterday and attracted large crowds of civilians. The idea of providing music for the people was suggested by Captain Rush who only a few days before had been directing the artillery and machine gun fire against the same people.

Large numbers of Mexicans called at Rear Admiral Fletcher's headquarters today pleading for the release of friends and relatives who had been made prisoners. The almost invariable reply was that all whose innocence could be established would be released in a short time. Captain Huse, chief of staff of Rear Admiral Fletcher, addressed

Notice of Appointment.

Notice of Appointment of Judge of Probate of the County of Essex, Massachusetts, to the Honorable Mr. J. W. C. ...

one group in Spanish telling them that the ... from the house ... must ... and that all Mexicans within the American lines must respect American authority.

The total number of prisoners taken was ... but some have already been released.

(Associated Press Telegram) Washington, April 24.—President Wilson and his staff today proceeded with their plans for operations in Mexico with business-like expedition.

The day and every available American ship ploughing southward for the Mexican coasts on the Atlantic and Pacific and a full brigade of the army division shipping in the sports from Galveston for Vera Cruz. This army force would place more than 10,000 American troops in the Mexican seaport to hold the city or begin offensive operations toward Mexico City, with Vera Cruz as a base.

No plan for further aggressive movement about Vera Cruz were made today.

The president in talking over the situation with his staff today said for the present no general campaign outside of Vera Cruz was planned, and that no further campaign would be begun unless General Huerta declared war, or some reprisal for the seizure of the city.

The president told his staff that no further troops would be needed, as yet, and that none would be asked for unless a general war was precipitated.

Meantime reports from Admiral Badger in Vera Cruz said that the city was comparatively quiet and that the American forces were doing their utmost to restore order and aid in the restoration of business.

Bands from the American fleet gave concerts in the streets where a few hours before the rattle of rifles had heralded death and injury.

By tomorrow Admiral Badger will have 500 marines and blue-jackets ashore at Vera Cruz sufficient, he says, to repulse any effort that may be made by the Americans forces under General Maas now at Soledad, 40 miles away. The transports conveyed by the first torpedo boat division, were expected to get away late today or tonight.

The whereabouts of Nelson O'Shaughnessy, the American Charge who last night informed the state department that he was leaving Mexico City with his passport, is now a matter of speculation. He had announced his intention of going to Vera Cruz by railroad, but private dispatches today reported him on his way to Manzanillo on the Pacific coast. The department was unable to secure any information later than Mr. O'Shaughnessy's announcement of his intention of leaving by way of Vera Cruz.

Secretary Daniels said the government's attitude now was one of "watchful waiting" to determine what Huerta would do. All the cabinet members looked upon the situation as having been more definitely determined by the complete occupation of Vera Cruz.

General Villa's attitude was again a subject of discussion and it was apparent that some of the officials took it with a "grain of salt." They were not ready to believe that the constitutionalists would be friendly and evidenced a disposition to wait further proof of their neutrality in the present situation.

One cabinet officer, when asked whether more troops would be sent to Texas, said he thought there was not the slightest danger of any invasion but that more troops might possibly be sent to relieve uneasiness among border residents.

(Associated Press Telegram) Washington, April 24.—The Senate today without debate passed the volunteer army bill as agreed to by the conference of the House and Senate.

President Wilson today told Chairman Fitzgerald of the House committee on appropriations who came to the White House to learn if any more funds were needed, that no appropriation was required, "for the present."

Kansas Boosters' Special Was An Object Lesson In Municipal Co-operation

If ever there was an object lesson given to the citizens of Newark, as to the desirable results of co-operation along lines of industrial progress, it was the special train bearing enthusiasts from the section of southeastern Kansas, which stopped in this city for an hour Thursday. It is the spirit displayed by these men, that it is the object of the Newark Board of Trade, to create and foster in this city. It is the spirit that wins recognition for any object toward which it is manifested, and will win for Newark.

These men were all boosters for the section in which they lived. There was not a man on the train who was not an enthusiast and the trip has been a success from beginning to end, because of this fact. They made themselves heard and felt enroute with the result that cities along the itinerary vied with each other in showing the visitors a royal welcome.

Their spirit struck a responsive chord in the inhabitants of the cities they passed through, and they were better for the visit of these breezy enthusiasts. Newark should also take the lesson to heart, and every one begin to show the proper spirit of individual enthusiasm and willingness to co-operate in the plan announced by the Board of Trade for Newark's industrial development.

Not a city represented on the train was a better city than this, and few if any, were as large as Newark, yet we saw an association of commercial clubs, from nine counties, spending \$20,000 for a special train to make a tour of two weeks, doing what? BOOSTING THEIR TOWNS. Showing to Easterners the industrial products of their section, and spreading the gospel of co-operation along the way. AND WHAT IS MORE THEY BELIEVE IT PAYS.

The people of Newark should do likewise in spirit, and in fact, sign up their Board of Trade cards, return them to the secretary and join in the campaign now being conducted with vim and spirit.

orders telephoned back to Galveston where the whistles of the fort blew exchange signals summoning their crews. An hour after the order reached Galveston every officer and man in the city knew it and was either at camp or on the way.

The quartermaster corps of the army overnight completed arrangements whereby the passenger steamer San Marcos, of the Mallory line and the freighter Satilla of the Texas steamship company are now at Galveston, as an additional transport to take his command to Vera Cruz. Horses and artillery equipment that cannot be placed on the four government transports already at Galveston will be met aboard the Satilla and the San Marcos will provide transportation for the remaining troops.
